Operation Phoenix Expansion Meeting Set

Hansberger Urges Residents to Attend Community Meeting

Supervisor Dennis Hansberger encourages residents of the unincorporated areas within a one-mile radius of Highland Ave. & Sterling Ave. to attend the first Community Meeting for the expansion of Operation Phoenix into the eastern area.

The Community meeting will be held at Emmerton Elementary School on Thursday, January 24th, beginning at 6:00 PM. The purpose of the meeting is to receive input on the prevention and intervention strategies and share ideas.

"I encourage everyone who is concerned about their neighborhood to attend this meeting and share ideas with the Mayor's representatives who will be implementing the program," said Third District Supervisor Dennis Hansberger.

Hansberger recently spearheaded a partnership that brings expansion of Operation Phoenix, the acclaimed community revitalization program created by San Bernardino Mayor Pat Morris, to unincorporated areas.

"We need input from the residents who live in this community; they need to tell us what will work in their neighborhoods and what won't work. Come be part of the solution," Hansberger said.
