Board Approves \$10-Million Road Improvement Project

SAN BERNARDINO—On Tuesday, the San Bernardino County Board of Supervisors approved a \$10-million road improvement and pedestrian safety project in San Antonio Heights.

“This project will enhance traffic safety in the Heights by improving about 20 miles of roadway surface and upgrading pedestrian infrastructure throughout the community,” Second District Supervisor Janice Rutherford said.

The Board also approved a cooperative agreement with the City of Upland since five of the roads in the project area fall under the jurisdiction of both the County and City. The City will contribute \$1.2 million to the project and will handle any right of way issues in its jurisdiction.

In addition to the road and pedestrian infrastructure improvements, the project also includes replacing some guardrails along Mountain Avenue.

Construction is expected to begin in the fall of 2022.
