The ***Get Connected!*** network has several free resources to share: computer training curriculum in multiple languages, advertising support for partners, and more. Partners can also take advantage of the ***Get Connected!*** online portal where best practices, templates, and curricula are shared. In addition, the ***Get Connected!*** Resource Map allows people to find your organization when they search for computer resources in your community.

I hope you will join us. Please bring any training, outreach, and resource materials you would like to share.
