## STATEMENT FROM BOARD OF SUPERVISORS CHAIR JOSIE GONZALES ON DERRY CHARGES

Today's news concerning Neil Derry is disturbing. However, as always, my focus will be upon faithfully executing the duties of my office without distraction.

I will not allow the actions of any one individual to define this County. I won't allow them to reflect upon or discourage the decent people who work here. I won't allow them to disrupt or create doubts about the vital, first-rate services that we provide for the public.

The Board of Supervisors has no information about Mr. Derry's legal situation beyond what has been filed with the court. The Board will discuss what little information it has with County Counsel in closed session at the earliest convenience to determine how Mr. Derry's situation might affect the County, if at all.

The County will of course fully cooperate with the Attorney General's Office and provide any assistance that's requested without hesitation.
