CHAIR GONZALES COMMENTS ON EVALUATION OF COUNTY CEO

SAN BERNARDINO – Greg Devereaux has been with the County for a year. After evaluating his performance today I am pleased to report that the Board of Supervisors is satisfied with all aspects of the job Mr. Devereaux is doing as our County's Chief Executive Officer.

In 12 short months, Greg has made great progress in putting the County on a productive track to tackle the daunting challenges we face during these harsh economic times. He has created a leaner, more-efficient organization that communicates well with the entire Board, our many departments, the County's workforce, and the public. Greg has reduced costs and initiated common sense approaches to complex problems.

The Board and I are cognizant in building short term and long term systems that address our debts, deficiencies, and other critical issues facing us. The CEO definitely has the working knowledge to help us do just that. We had a healthy in depth discussion as we reviewed his objectives and defined his goals.

As we continue to move forward, I am confident that Greg will use his unique executive management skills to guide the County through these difficult economic times by creating budgets that keep us solvent, running an organization we can all be proud of, and fostering the economic development that is key to the health, happiness, and prosperity of our residents.
