Safety Improvements to El Mirage Road Approved

SAN BERNARDINO – A project to improve the safety of motorists on El Mirage Road west of Adelanto was approved today by the San Bernardino County Board of Supervisors.

“As the High Desert grows, improving the safety of our roadways becomes increasingly important,” said First District Supervisor Brad Mitzelfelt. “This project is part of our ongoing efforts to make roads as safe as possible for all desert motorists.”

The project area is about one mile west of Sheep Creek Road at the intersection with Tanner Road. A hill at that location makes it difficult for motorists to turn safely at the intersection. The project, estimated to cost \$436,000, will lower the hill to improve sight distance for motorists.

The construction will complete a larger repaving project started last year that rehabilitated about two miles of El Mirage Road between Sheep Creek Road and Colorado Road. The work is expected to be finished this summer.
