## BUDGET CHANGES AND OPERATIONAL IMPACT

Requirements are increasing by a net of \$2.3 million. The increase is due to the combination of an increase in operating transfers out of \$1.3 million primarily to fund the remaining balance of the Big Bear Alpine Zoo Relocation project and a decrease in reimbursements totaling \$3.6 million to reflect the elimination of a reimbursement for the Lake Gregory Dam Project budgeted in 2014-15 but not received. This reimbursement will be re-budgeted when the funds are needed for the project. These increases in requirements are offset by reductions in capital, operating, and staffing expenses totaling \$2.7 million to adjust budgeted expenses to reflect historical results.

## ANALYSIS OF FUND BALANCE

Fund balance of \$11.8 million consists of \$7.3 million in available reserves and the use of fund balance of \$4.5 million primarily to fund one-time capital expenditures. Contributions to fund balance in prior fiscal years were primarily contributed to fund multi-year capital improvement projects in future years. Other uses of fund balance in CSA's where services are funded by property taxes is primarily due to requirements exceeding sources and the level of service provided is dictated by the amount of available revenue. The use of fund balance in CSA's where services are funded by service charges or special taxes is primarily due to fund balance exceeding the Department's required 25% reserve threshold and is used until such time that reserves are reduced to the required threshold.

### **BUDGET CHANGES AND OPERATIONAL IMPACT**

Requirements are decreasing by \$18,758 primarily as a result of a reduction in administrative overhead charges. Sources are increasing by \$43,867 primarily due to increased revenue from proportional share of tax levy.

### **ANALYSIS OF FUND BALANCE**

Fund balance of \$1.2 million consists of \$1.1 million in available reserves to fund future operations and a use of fund balance of \$62,847 funds ongoing operations. Contributions to fund balance in prior years are used to meet the Department's required 25% reserve threshold. The use of fund balance in CSA's where services are funded by property taxes is primarily due to requirements exceeding sources and the level of service provided is dictated by the amount of available revenue. The use of fund balance in CSA's where services are funded by a per parcel service charge is primarily due to fund balance exceeding the Department's required 25% reserve threshold and is used until such time that reserves are reduced to the required threshold.

## SPECIAL DISTRICTS CAPITAL IMPROVEMENT PROGRAM

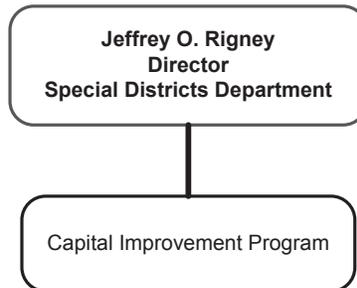

Jeff Rigney

### DEPARTMENT MISSION STATEMENT

*The Capital Improvement Program receives and evaluates capital expenditure requests, recommends priorities for the acquisition or improvement of land, facilities and infrastructure, oversees and monitors major capital projects, and guides growth and change of County facilities and infrastructure by anticipating future needs.*

### ORGANIZATIONAL CHART

### 2015-16 SUMMARY OF BUDGET UNITS

Funding for capital projects is included in Capital Improvement Program funds for Special Districts General, Parks, Roads, Sanitation and Water County Service Areas and Zones.

### DESCRIPTION OF MAJOR SERVICES

The Capital Improvement Program (CIP) is an internal planning tool administered by the Special Districts Department to provide the Board of Supervisors (Board) with information to assist in the decision-making process for the allocation of limited resources to capital projects. The CIP provides for the acquisition, construction, reconstruction, fixtures and equipment, renovation, rehabilitation or replacement of facilities, equipment, and infrastructure with a life expectancy of at least five years and capital costs of \$5,000 or more. The program:

- Recommends priorities for capital projects based on capital improvement criteria for Special Districts general, parks, roads, sanitation, and water facilities and infrastructure;
- Prepares the annual CIP budget, monitors and directs implementation of approved projects through the department;
- Provides direct oversight for major capital projects;
- Performs long-range planning to:
  - Link department capital and operational budget plans to Countywide strategic plans,
  - Conduct physical condition assessments through periodic surveys of facilities to identify major, large-scale projects to repair and rehabilitate department assets,
  - Identify opportunities for energy efficiencies, life-cycle increases, and maintenance operating cost reductions,
  - Identify future infrastructure needs of the department, and

- Develop formal estimates of costs and seek adequate project funding.

## BUDGET HISTORY

The CIP is funded by a number of sources, including the County general fund, and County Service Area (CSA) and Improvement Zone operating and reserve funding, and various other funding sources including grants:

- Discretionary General Funding: Funded from County General Fund discretionary dollars provided to CIP for department projects.
- Other Funding: The underlying funding source is from CSA and Improvement Zone funding, or is from a dedicated source for a specified purpose (such as grants).

The Department's CIP includes construction, rehabilitation, and repair projects for numerous facilities, structures, and infrastructure. CIP funds are budgeted in various capital budget units and expended in various capital asset object codes: 4005-Land, 4010-Improvements to Land, 4030-Structures, Improvements to Structures, 2445-Professional Services, and 5030-Operating Transfers Out.

## ANALYSIS OF 2015-16 ADOPTED BUDGET

Each year, Special Districts Regional Managers are requested to submit possible capital improvement projects for the individual CSAs and Improvement Zones, including Big Bear Recreation and Park District and Bloomington Recreation and Park District. Special District's Engineering Division prepares feasibility studies, scopes of work, and estimates for these projects. The Engineering Division also works closely with the Administrative/Budget division to evaluate available funding for the projects. A total of 85 projects for a total of \$33.4 million are being requested by Special Districts Department within this budget for 2015-16.
