

2007-08 BUSINESS PLAN

The County of San Bernardino's 2007-08 Business Plan consists of each department's mission statement, organizational chart, descriptions of major services, 2005-06 accomplishments and 2006-07 budget information. In addition, the Business Plan outlines departmental goals, objectives, and performance measures, including information on the current status of objectives and anticipated results. It also notes requests for additional general fund financing (policy items), and fee adjustments for the period of July 1, 2007 – June 30, 2008.

The purpose of the Business Plan is to:

- Provide a guide for employees, to increase awareness of goals, objectives, and performance measures necessary to meet the overall mission of the department.
- Support the annual budget plan by helping to determine how available resources can be tied to goals.
- Help track, monitor, and evaluate progress by establishing timelines and milestones, where each department can gauge their progress and compare their projections to actual accomplishments.
- Promote a broader understanding of where the department is going in terms of goals.

County departments use the Business Plan process as a way to guide and track progress toward goals and objectives with a strong focus on accountability for Board-approved policy items. The 2007-08 Business Plan demonstrates the progress departments have made in achieving goals, illustrates how resources have been utilized, and offers a more refined and streamlined approach to identifying objectives and measuring progress. As such, the goals enable departments to focus on implementing and improving Board-approved programs and day-to-day operations that maximize the use of funding, staffing, and facility assets. Thus, the goals from 2006-07 remain largely unchanged and departments continue to focus on improving business practices, using resources more effectively, and providing outstanding customer service.

When developing their Business Plans, each department considered the following mission, vision, and value statements for the County of San Bernardino:

ALTERNATE TABLE OF CONTENTS

One of the purposes of the County of San Bernardino’s 2007-08 Business Plan is to help track, monitor, and evaluate the progress of individual departments within the County. In order to do so, there must be particular standards by which the County is able to judge itself. For the County of San Bernardino, the County Mission Statement has established these standards. The County Mission Statement reads, “The mission of the government of the County of San Bernardino is to satisfy its customers by providing service that promotes the **health, safety, well-being, and quality of life** of its residents according to the County Charter, general laws, and the will of the people it serves.” The four primary standards the county is looking to uphold, then, are health, safety, well-being, and quality of life for the citizens of San Bernardino County. The following Alternate Table of Contents has been created to help the reader gain a better understanding of how the structure of the County promotes these standards. Within this Table of Contents each department has been placed in a category that either coincides with or supports a particular standard that the County is seeking to promote. The categories are as follows:

- The *Support* category is made up of departments that support the County’s infrastructure, which enables it to run efficiently and provide services in accordance with the standards set forth in the County Mission Statement.

SAN BERNARDINO COUNTY/STATE OF CALIFORNIA COMPARATIVE MEASURES

In developing the County of San Bernardino's 2007-08 Business Plan, each County department was asked to establish specific quantifiable measures that could be used to evaluate its performance for the next fiscal year. These performance measures help the department to assess its progress in fulfilling the mission, goals, and objectives it has set for itself within the business plan. In the same way, the County as a whole has decided that the following statistics are important in evaluating the County's progress in fulfilling its mission statement. The themes of health, safety, well-being, and quality of life have been addressed in the following table so that each statistic correlates with a particular aspect of the mission statement. To gain a broader understanding of the County's status with regards to these themes, comparative statistics for the State of California have been included in the table. Although the government of the County of San Bernardino does not have direct control over each of the measures, it is hoped that the services the County provides will lead to improved outcomes for each of the measurements listed below.
