

2013

SAN BERNARDINO COUNTY

FIRE AND RESCUE MUTUAL AID OPERATIONAL PLAN

Presented by the

OPERATIONAL AREA COORDINATING COMMITTEE

of the

SAN BERNARDINO COUNTY FIRE CHIEFS' ASSOCIATION

Mark Hartwig, Chairman	
Operational Area Coordinator	
Zone 7 Coordinator	San Bernardino County Fire Department
Floyd Clark, Fire Chief	
Zone 1 Coordinator	Ontario Fire Department
Jeff Frazier, Fire Chief	
Zone 2 Coordinator	Redlands Fire Department
Jeff Willis, Fire Chief	
Zone 3 Coordinator	Big Bear Fire Authority
Don Trapp, Division Chief	
Zone 4 Coordinator	San Bernardino County Fire Department
Dave Benfield, Division Chief	
Zone 5 Coordinator	San Bernardino County Fire Department
Dave Benfield, Division Chief	
Zone 6 Coordinator	San Bernardino County Fire Department
Mark Hartwig, Fire Chief	
Zone 7, Coordinator	San Bernardino County Fire Department
John Lane, Fire Management Officer	
Zone 8 Coordinator	United States Forest Service
Robert Berger, Fire Management Officer	
Zone 9 Coordinator	Bureau of Land Management
Rod Bywater, Unit Chief	
Zone 10 Coordinator	CALFIRE, San Bernardino Unit
Art Torrez, Assistant Chief	
Zone 11 Coordinator	OES Fire and Rescue Branch

Compiled by: Michael Weston, Administrative Supervisor

PREFACE

“Mutual Aid is an agreement in which two or more parties agree to furnish resources and facilities and to render services to each and every party of the agreement to prevent and combat any type of disaster or emergency.”

This manual was prepared by the San Bernardino County Fire Chiefs’ as an information source outlining the Fire and Rescue Mutual Aid System in San Bernardino County.

The system within the County is directly associated with the California Fire and Rescue Emergency Plan and dovetails into the established Mutual Aid System of the Plan.

I. GENERAL OVERVIEW

This page left intentionally blank.

I. GENERAL OVERVIEW

A. Introduction

This Operational Plan is created and intended to be an integral part of the current State of California Fire and Rescue Emergency Plan.

B. Intent

No community has the ability or resources sufficient to cope with any and all emergencies for which the potential exists. The Plan is designed to meet the anticipated needs of local agencies within their zones, to access resources of adjacent agencies within the area of the County, and to access the resources of other jurisdictions within OES Region VI, or beyond if necessary, to meet the needs of emergency incidents.

C. Purpose

1. To provide for systematic mobilization, organization and operations of fire and rescue resources within each zone of the County of San Bernardino, to mitigate the effects of any disaster, and beyond that capability, to utilize the resources of OES Region VI, and beyond, if necessary.
2. To provide a comprehensive and compatible plan for expediting mobilization and response of available fire and rescue service resources within each local Zone, Area, Region or Statewide.
3. To provide for an annually updated fire and rescue service inventory of all personnel, apparatus and equipment in San Bernardino County.
4. To provide a plan, and/or communication facility, for the interchange and dissemination of fire rescue related data, directives, and information between fire officials of local, Area, Region, and State agencies.

D. Planning Basis

1. Fire and rescue officials must plan emergency operations to ensure utilization of available resources.

Rescue is defined as “those activities that can be carried out with the personnel and equipment normally available on fire apparatus.”

2. Basic to California’s emergency planning is a local and area wide system of mutual aid, in which each local jurisdiction relies first upon its own resources, but in which mutual assistance is available from adjacent local jurisdictions, other jurisdictions within our area, and the resources of OES Region VI, the State of California, or beyond, when necessary.
3. A formal structure is necessary for the provision of mutual aid.
4. No party shall be required to unreasonably deplete its own resources in furnishing mutual aid.

5. The responsible local official in whose jurisdiction an incident requiring mutual aid has occurred shall remain in charge at such incident, including the direction of personnel and equipment provided through mutual aid plans.
6. County-wide and local mutual aid operational plans shall be developed by the parties thereto and are operative between the parties thereto in accordance with such mutual aid plans.
7. The mutual aid extended under this operational plan, as adopted pursuant to the San Bernardino County Mutual Aid Agreement, shall be without reimbursement unless otherwise expressed to the requesting parties to the mutual aid agreement, at the time of the request, or by prior agreement between the requesting and providing agencies.
8. This operational plan provides a practical and flexible pattern for the orderly development and operation of day-to-day mutual aid on a voluntary basis between cities, cities and counties, fire districts, special districts, county fire departments and applicable state agencies.
9. In developing local mutual aid and emergency preparedness plans, provisions must be made for liability and property damage insurance coverage on apparatus and equipment used beyond the territorial limits of the political subdivision. Consideration must be given to the rights, privileges, and immunities of paid, volunteer, and auxiliary personnel in order that they may be fully protected while performing their duties under a mutual aid agreement or an emergency preparedness plan. Provision is made in state law to deal with these matters, and the procedure outlined therein should be followed to ensure maximum protection.
10. Political Subdivision Responsibilities:
 - a. Reasonably exhaust local resources before calling for outside assistance.
 - b. Render the maximum practicable assistance to all emergency stricken communities, under provisions of the San Bernardino County Mutual Aid Plan.
 - c. Provide a current annual inventory of all fire department qualified personnel, apparatus and equipment to the Area Fire and Rescue Coordinator.
 - d. Provide for receiving and disseminating information, data and directives.
 - e. Coordinate and conduct necessary training to adequately perform functions and responsibilities during emergencies.
11. Operational Area Fire and Rescue Coordinator
 - a. Is responsible for coordinating all OES and/or local fire and rescue resources within the Operational Area during mutual aid operations.
 - b. If the emergency is within the jurisdiction of the Operational Area Fire and Rescue Coordinator, and overloads his communications facilities, he assigns dispatching of mutual aid equipment to an Alternate Area Fire and Rescue Dispatch Center.
 - c. Keeps the Regional Fire and Rescue Coordinator informed of all operations that may require resources from outside the operational area.

- d. Evaluates requests for assistance, determines the local sources for such assistance, and initiates appropriate response. If the need is beyond Operation Area capability, he will request assistance from the Regional Fire and Rescue Coordinator, and advise the requesting jurisdiction of his action.
- e. The Area Fire and Rescue Coordinator is not responsible for any direct fire or other emergency operations except those which occur within the jurisdiction of his own department, agency, etc. The local official in whose jurisdiction the emergency exists shall remain in full charge of all fire and rescue resources, manpower, and equipment furnished for mutual aid operations.

E. Concept of Operations

1. Mobilization Plan

Fire and rescue mutual aid, rendered pursuant to the San Bernardino County Mutual Aid Agreement for Fire Departments and the California Master Mutual Aid Agreement, is based upon an incremental and progressive system of mobilization. Mobilization plans have been based on the concept of providing the local fire and rescue authority sufficient resources, without extraordinary depletion of fire defenses outside of the area of disaster. Under normal conditions, fire mutual aid plans are activated in ascending order; i.e. Local, Area (County), Region, and Inter-Region (State). Circumstances may occur which make mobilization of significant fire defense forces from within the area or region of disaster impractical and imprudent. Inter-regional (State) mutual aid is, therefore, not contingent upon mobilization of uncommitted resources within the region of the disaster.

a. Local Fire and Rescue Resources

Local fire and rescue resources include resources available through automatic and/or day-to-day mutual aid agreements with neighboring jurisdictions. Local mobilization plans are activated by requests to participating agencies and must provide for notification of the Operational Area Fire and Rescue Coordinator upon activation. The Operational Area Fire and Rescue Coordinator shall be notified of those committed resources in order to determine resource availability for subsequent response.

b. Operational Area Fire and Rescue Resources

Operational Area Fire and Rescue Resources are those which are made available to a participating agency through the approved and adopted San Bernardino County Mutual Aid Agreement. Mobilization of Operational Area resources is activated by the Operational Area Fire and Rescue Coordinator, or his representative, in response to a request for assistance from an authorized fire official of the participating agency in need. The Area Coordinator must notify the Regional Fire and Rescue Coordinator of all area resources committed.

c. Regional Fire and Rescue Resources

Regional fire and rescue defense resources include all resources available to a participating agency through the approved and adopted Regional Fire and Rescue Mutual Aid Plan. Operational Area plans are significant elements of the regional plans.

Mobilization of regional fire and rescue resources is directed by the Regional Fire and Rescue Coordinator in response to a request for assistance from an Area Fire and Rescue Coordinator. Regional Fire and Rescue Coordinators must notify the Chief, OES Fire and Rescue Division, of resources committed.

2. Dispatch Center

Fire and Rescue dispatch centers must be carefully selected and be adequately equipped for emergency operations. They should be located in a facility which conducts 24-hour a day operations. They must be equipped to permit direct communications with all fire and rescue service agencies within their area of operations. They must be staffed with competent personnel and equipped with such maps, charts, records and operational data as are necessary to perform emergency operations. Alternate Fire and Rescue Dispatch Centers should have the same capability as primary centers, thus ensuring continued operations in the event of failure of the primary center.

II. MUTUAL AID SYSTEM

9 BLM	BDF
10 CAL FIRE	BDU
11 OES	COMM CENTER

San Bernardino County
 Mutual Aid Zones
 May 2012

II. MUTUAL AID SYSTEM

A. SYSTEM OVERVIEW

San Bernardino County is the largest county of the adjacent states in the United States. It is located in the southeastern portion of California. With over 20,000 square miles, it covers more territory than the States of New Jersey, Massachusetts, Rhode Island and Delaware combined.

There are twenty-four incorporated cities in the County with the heaviest concentration of population in the west-central portion. The County population exceeds one million with additional temporary people utilizing the numerous recreational facilities.

The County topography is varied and diverse, ranging from vast arid desert regions to mountainous forest lands, with the Inland Empire in between. The topography and the climate are two factors that are responsible for some very interesting and troublesome fire and emergency situations.

In order to combat the emergency situations that may develop and that are beyond the control of any one agency, the County of San Bernardino, District Fire Agencies, and Municipal Fire Departments are signatories to the State of California Master Mutual Aid Plan. In addition, many of the agencies have developed local mutual aid and automatic aid agreements.

In an effort to maximize the resources within the County and to assist in the coordination of such resources, a Mutual Aid System has been developed that divides the County into eleven zones, and they are as follows:

Zone 1	West Valley Area
Zone 2	East Valley Area
Zone 3	Mountains Area
Zone 4	High Desert Area
Zone 5	Morongo Basin Area
Zone 6	East Desert Area
Zone 7	San Bernardino County Fire Department (BDC)
Zone 8	United States Forest Service (USFS)
Zone 9	Bureau of Land Management (BLM)
Zone 10	CALFIRE
Zone 11	Office of Emergency Services (OES)

- Zones 1 to 6 are geographical.
- Zones 7, 8, 9 and 10 are agency zones because their jurisdictional area may interface with more than one geographical zone.
- Zone 11 consists of the OES equipment that is staged at departments from several zones.

As outlined in the California Fire and Rescue Emergency Plan, the responsibility for coordinating the Mutual Aid System in the County is assigned to the Operational Area Fire Coordinator (O AFC), who is selected from the fire officials of the entire County. The O AFC selects alternates as necessary.

Current assignments are as follows:

- ⇒ O AFC: Mark Hartwig, San Bernardino County Fire Department
- ⇒ Alternate: Dan Odom, San Bernardino County Fire Department
- ⇒ Alternate: Mike Bell, Rancho Cucamonga Fire Department

The O AFC selects an area dispatch center to implement the Mutual Aid System within the County to dispatch the State-owned equipment (OES).

The area dispatch is known as “Comm Center”. It is the San Bernardino ConFIRE JPA Communications Center located at 1743 West Miro Way in Rialto. Through the O AFC, it coordinates the interaction between the various zones when mutual aid is required from one zone to another.

Within each zone, a zone coordinator has been selected and coordinates the mutual aid activity within their respective zone.

Zone 1	Floyd Clark, Fire Chief, Ontario Fire Department
Zone 2	Jeff Frazier, Fire Chief, Redlands Fire Department
Zone 3	Jeff Willis, Big Bear Fire Department
Zone 4	Don Trapp, Division Chief, San Bernardino County Fire Department
Zone 5	Dave Benfield, Division Chief, San Bernardino County Fire Department
Zone 6	Dave Benfield, Division Chief, San Bernardino County Fire Department
Zone 7	Mark Hartwig, Fire Chief/Fire Warden, San Bernardino County Fire Dept.
Zone 8	John Lane, Fire Management Officer, USFS – San Bernardino
Zone 9	Robert Berger, Fire Management Officer, Bureau of Land Management
Zone 10	Rod Bywater, Unit Chief, CALFIRE – San Bernardino Unit
Zone 11	Art Torrez, OES Firescope Program Manager

B. ACTIVATING THE MUTUAL AID PLAN

To ensure that all requests for Mutual Aid are handled expediently, it is necessary to follow established procedures.

To assist in understanding the procedure, the following chart is provided:

1. REQUESTING FIRE AND RESCUE MUTUAL AID RESOURCES, (PG 28)

A. Local Fire-Rescue Chief

The Fire Chief, or senior fire and rescue official by other designated title, of each local entity providing public fire protection will serve as fire and rescue representative to their respective Zone Fire and Rescue Coordinator.

The Chief in whose jurisdiction the incident occurs requests his dispatch center to contact the Zone Coordinator to respond with mutual aid assistance. Wherever the incident is, or potentially will be, beyond the capabilities of the local agency, the requesting agency should specify the exact resource needed. This resource is generally provided by a request for strike teams with a specific capability, i.e., brush or structural. When there is a need for specialized equipment, the procedural request should still be made through the Zone Coordinator.

B. Zone Coordinator

The Zone Coordinator is elected by the local fire-rescue chiefs in a designated zone. Zones are established by the Operational Area Fire Coordinating Committee. Local agencies requesting assistance from outside their jurisdiction request their dispatch center to contact their Zone Coordinators. Zone Coordinators will then contact the Operational Area Fire and Rescue Coordinator.

When notified by the local jurisdiction that their resources are inadequate to cope with the emergency at hand, the following steps should be taken:

1. Activate local mutual aid plan.
2. Notify the Operational Area Fire and Rescue Coordinator.
3. Request needed resources.
4. Prepare to receive and utilize mutual aid requested/provided.

C. Operational Area Fire and Rescue Coordinator

The Operational Area Fire and Rescue Coordinator is selected by the representatives of local fire and rescue service entities within the Operational Area. The Coordinator shall appoint two or more alternate fire and rescue coordinators.

The Area Fire and Rescue Coordinator is notified whenever required resources exceed the capability of a particular zone, when more than one jurisdiction is involved in mutual aid, and when the incident is within the area but beyond the resources of the jurisdiction in which it occurs.

Zone Coordinators requesting assistance outside their zones request their dispatch centers to contact the Area Coordinator, who will then process the request and provide the closest available resources to respond. Resources will be in the form of strike teams.

The Operational Area Fire and Rescue Coordinator will:

1. Evaluate conditions and resource availability within the operational area.
2. Coordinate the dispatch and requested resources from those available within the area.
3. Notify the Regional Fire and Rescue Coordinator and report conditions, situation, and resource status of the area.
4. Request mutual aid resources as are needed to fulfill request initiated by local jurisdiction or to reinforce seriously depleted resources within the Operational Area.

D. Regional Fire and Rescue Coordinators

Regional Fire and Rescue Coordinators are selected for a three-year term by Area Fire and Rescue Coordinators within their respective regions. They shall each appoint two or more alternate Regional Fire and Rescue Coordinators. They, or their alternates, will serve on the staff of the OES Regional Manager during a "state of war emergency" or "state of emergency" declared by the Governor.

Resources from OES Region VI are requested by the Area Fire and Rescue Coordinator when the resources of the area (San Bernardino County) are not adequate to meet the needs of a specific incident or potential incident.

The Regional Fire and Rescue Coordinator will, upon notification:

1. Evaluate conditions and resource availability within the Region.
2. Coordinate the dispatch of requested resources from those available within the region according to the adopted plan.
3. Notify the State Fire and Rescue Coordinator, reporting conditions, situation, and resource status of the region.
4. Request such mutual aid resources as are necessary to fulfill request(s) initiated by the stricken jurisdiction or to reinforce seriously depleted resources within the region.

E. State Fire and Rescue Coordinator

The State Fire and Rescue Coordinator (OES) is the Chief of the Fire and Rescue Division of the Office of Emergency Services and is a staff member of the Director of the Office of Emergency Services. The State Fire and Rescue Coordinator is responsible for taking appropriate action on requests for mutual aid received through Regional Fire and Rescue Coordinator channels, and having been notified, could render further assistance from other regions by mobilizing resources to meet anticipated needs.

The State Fire and Rescue Coordinator will, upon notification:

1. Evaluate conditions and resource availability throughout the state.
2. Notify Regional Fire and Rescue Coordinators through whom the regional fire and rescue resources are likely to be activated.
3. Select regions from which resources are to be mobilized to fulfill requests.
4. Coordinate the response of inter-regional mutual aid resources.
5. Activate OES and other state agency support personnel, apparatus and equipment necessary to handle contingencies of the particular emergency.

C. COUNTY MUTUAL AID POLICY

The San Bernardino County Fire Chiefs' Association Policy Statement is to offer guidelines for consistent application of issues that may affect the fire services within San Bernardino County.

1. INCIDENT COMMAND SYSTEM ("ICS")

It is the intent of the San Bernardino County Fire Chiefs' Association that the Incident Command System be utilized for the management of all fire agency emergency activities. All updates of the Incident Command System will be reviewed by the Operational Area Coordinating Committee for implementation.

The Incident Command System will be mandatory in all emergencies requiring mutual aid, strike teams, or resources tending to reduce the county-wide Fire Service's ability to respond to major emergencies, regardless of location. Qualifications required for each position shall meet California Incident Command Certification System standards.

For all emergencies, the current Field Operations Guide (ICS 420-1) shall be utilized.

2. INCIDENT COMMAND SYSTEM POSITION QUALIFICATIONS

A. Qualifications

1. All personnel assigned to emergency incidents through mutual aid shall be fully qualified for the position in which they are assigned in accordance with the California Incident Command Certification System (CICCS).
2. Each department shall provide the Operational Area Coordinator with a list of CICCS qualified personnel for inclusion in the Emergency Resource Database (ERD) on an annual basis, or as changes occur. The ERD is an inventory of all personnel and the positions for which they are qualified either as a Trainee or Certified status. The ERD is an inventory of all personnel and the positions for which they are qualified either as a "TRAINEE" and/or "CERTIFIED".

B. Operational Guidelines and Local Mutual Aid

1. Qualified personnel should be transitioned into overhead positions as soon as possible on initial attack incidents.
2. Qualified personnel and trainees should be assigned to incidents extending into the 2nd operational period whenever possible.
3. A written Incident Action Plan ("IAP") shall be used on incidents extending into the 2nd operational period.
4. A rotating list of available qualified personnel shall be utilized by the Op Area dispatch center to allocate the assignment of personnel when filling requests. This is done to allow all eligible personnel to maintain their mandatory response requirements for their qualified positions.

3. COMMUNICATION/DISPATCH CENTERS

- A. Zone dispatch centers (both Agency and Geographical) are to inform and coordinate with Area Dispatch regarding the use within their zone of "VFIRE21, VFIRE22, VFIRE23, VFIRE24, VFIRE25 and VFIRE26" frequencies for emergency operations. This will provide for improved frequency utilization and coordination.
- B. In order to comply with Region VI information requests and the FIREScope 209 program, Zone dispatch centers are requested to provide situation information to the Area Dispatch on emergency incidents that are estimated to require the commitment of 15 or more single resources (excluding staff and overhead) for two or more hours.
- C. In order to comply with Region VI MACS Mode 3 and 4 operational procedures, Zone dispatch centers are requested to provide resource status reports (MACS 405) on an as-needed basis. In addition, Zone dispatch centers are requested to utilize the Resource Order form (MACS 420) when ordering and/or processing resource requests.

- D. Zone dispatch centers are encouraged to use local mutual aid resources (immediate need) within their respective zones before requesting resources (single increment and strike teams) from Area Dispatch.
- E. All mutual aid requests for local agency resources that are required to be ordered from another agency/geographical zone, or from out-of-county, other than those covered by initial response, mutual aid or automatic aid agreements, are to be communicated to and coordinated through Area Dispatch.
- F. All mutual aid requests originating in the County for OES resources are to be communicated to and coordinated through Area Dispatch.
- G. If a request for mutual aid is made in anticipation of an incident, such as a high-wind event, and the proposed immediate use of the resources is for station or area coverage, the requesting agency must specify this intended use upon making the request. Comm Center will then relay this information to the agency from which the resources are being requested.

4. STRIKE TEAMS/TASK FORCES (ST/TF)

- A. On out-of-county assignments, local resources should not be mixed with OES equipment. Likewise OES equipment should not be mixed with local resources in strike teams on out-of-county assignments.

**Exception: OES and local resources may be mixed into Strike Teams or Task Forces for in-county assignments.*

- B. As a general rule, requests for out-of-county ST/TF will be filled by the OES resources first. Emergency situations (immediate need) and specific resource requests may require exceptions.
- C. When local ST/TFs are assigned out of the county for an extended period of time, a zone liaison and/or an alternate area coordinator may be assigned to the Operations Coordination Center ("OCC") in Riverside to interface with the OES representatives.
- D. When local ST/TFs are assigned to an incident within San Bernardino County for an extended period of time, a zone liaison and/or alternate area coordinator may be assigned to the incident to interface with the Incident Management Team.
- E. The selection of an OES Strike Team Leader will be on a weekly zone rotational basis as determined by the Operational Area Coordinating Committee. A Strike Team Leader Trainee may accompany each strike team.
- F. Local resource ST/TF Leader rotational selection is to be determined by each Zone Coordinator. A Strike Team Leader Trainee may accompany each strike team or task force.
- G. When local Strike Teams/Task Forces are made up from more than one (1) zone, the Strike Team Leader is to be selected from the zone providing the majority of units.

- H. A request for three (3) or more single resources from a zone for out of zone or out of county assignment will respond as a task force until such time that all other requirements of a strike team are met, (i.e.-5 like units with common communications and a leader) and then be made into a strike team.

**Exception: Operational area is authorized to directly order/fill initial attack/immediate need engine requests with up to five (5) strike teams or task forces from one adjacent OES Operational Area/Region based on the closest resource concept.*

- I. When assigned out-of-the-area or on local major incidents, leaders of strike teams ordered through the Op Area dispatch center (Comm Center), shall contact them daily to advise their status. This information will then be relayed to the home departments of those units assigned to the team.
- J. Whenever possible, Comm Center will work with agencies providing mutual aid resources to ensure that at least 1 engine company in a Type-I strike team or taskforce is equipped and capable of delivering Advanced Life Support (ALS) care.
- K. All personnel assigned as to engine companies as a mutual aid resource shall comply with San Bernardino County (XBO) Region VI Engine ST/TF Code of Conduct (See Attachment "B" located on page 23 of this document: SAN BERNARDINO COUNTY (XBO), Region VI, ENGINE ST/TF CODE of CONDUCT.)
- L. Crew Rotation
1. 14-day assignments exclude travel days. 21-day assignments include all travel days.
 2. Personnel on mutual-aid assignments shall be prepared for a minimum fourteen (14) day deployment. An exception may be made for personal emergencies.
 3. Strike Team Leaders should anticipate a rotation of personnel and apparatus based upon the schedule in Table 1.
 4. All rotations must be coordinated with the appropriate Zone and Operational Area Coordinator and the Operational Area Dispatch center.
 5. All rotations must be coordinated with the OES Representative and/or Incident.

Table 1: Strike Team/Task Force Crew Rotation Matrix

	Crew Rotation	Maximum Deployment	Apparatus Rotation
OES	14 Days *	21 Days **	OES Discretion
Type 1 – 3 Strike Team Task Force	14 Days *	---	Agency Discretion
Single Resource Crew	14 Days *	---	Agency Discretion
Single Resource Overhead	14 Days or Agency Discretion	21 Days or Agency Discretion	N/A
Incident Mgt Team	N/A	N/A	N/A

* CFAA may pay for rotations after 7 days

** Must be approved through Operational Area Coordinator and local Fire Chiefs with units assigned to the Incident.

5. IMMEDIATE NEED STRIKE TEAM/TASK FORCE PROCEDURES

See attachment “A” located on page 21 of this document: Immediate Need STRIKE TEAM/TASK FORCE Procedures.

6. ICS POSITION ASSIGNMENTS

A. Strike Team /Task Force Documentation and Equipment Requirements:

1. Equipment

- a. The Strike Team Leader shall have his/her own department vehicle complete with the following equipment:
 - i. Mobile radio programmed with all 32 frequencies contained in the Fire Service Field Operations Guide (ICS 420-1), Appendix A, Communications.
 - ii. Portable radio programmed with all 32 frequencies contained in the Fire Service Field Operations Guide or shall be capable of being field programmable to include VFIRE21, VFIRE22 and VFIRE23,- (154.280, 154.265, 154.295).
 - iii. Cellular phone
 - iv. ICS forms
 - v. Current edition of Thomas Bros California map book
 - vi. Flagging tape
 - vii. Food and drinking water for a 24-hour period
 - viii. FIREScope Field Operations Guide (FOG)

- B. Use of Private Resources
 - 1. Any use of private resources, utility companies, etc. during emergency operations shall be done in accordance with FIRESCOPE guidelines.
- C. Requirements
 - 1. All ICS positions are responsible for the completion and submittal of ICS and OES forms.
 - 2. The following forms are required in San Bernardino County:
 - a. Form 42 (Emergency Activity Record) for all resources in a Strike Team or a Task Force and overhead positions.
 - b. ICS Form 214 (Unit Log) for overhead positions and Strike Team leaders.
 - c. If necessary, a CDF FC-121 form (Fire Assignment Evaluation) or ICS Form 224 (Crew Performance Rating) or ICS Form 225 (Incident Personnel Performance Rating), whichever is applicable.
 - d. Each local agency is responsible for the submittal and tracking (and recovery) of mutual aid and OES forms.
 - 3. In addition, the ICS position is responsible for:
 - 1. Reviewing common responsibilities (Field Operations Guide, page 1-2)
 - 2. Reviewing assignments with subordinates and assign tasks.
 - 3. Monitoring work progress and make changes when necessary.
 - 4. Coordinating activities with adjacent Strike Team, Task Forces and/or single resources.
 - 5. Traveling to and from active assignment area with assigned resources.
 - 6. Retaining control of assigned resources while in available or out-of-service status.
 - 4. Within 24-hours of the initial response of a strike team to a mutual aid request, the ICS position assignee or strike team leader will notify the Zone Coordinator's dispatch center and the Operational Area Fire and Rescue Coordinator by telephone or radio through Area Dispatch of the following:
 - a. Their location, assignments of the team and whether or not any relief is required.
 - b. If relief is needed in accordance with the California Fire Assistance Agreement ("CFAA"), the local agency Fire Chief will coordinate with the Operational Area Coordinator.

5. It is understood that the ICS position has the ultimate responsibility for the fitness of his/her personnel. Determinations regarding the length of continued duty allowable should be made based on whether the personnel are receiving adequate food and rest between operational assignments.
6. Assignments could last up to 21 days depending on the incident jurisdiction. The removal and replacement of personnel on strike teams is a difficult job of coordination. It is desirable to leave the Strike Team intact if personnel are well fed and rested between work assignments. Final determination regarding relief of a strike team rests with the Strike Team Leader and respective Department policy and procedures.

7. PROCESS FOR PROPER REFUSAL OF RISK

- A. Every individual has the right and obligation to report safety problems and contribute ideas regarding their safety. Supervisors are expected to give these concerns and ideas serious consideration. When an individual feels an assignment is unsafe they also have the obligation to identify, to the degree possible, safe alternatives for completing that assignment. Turning down an assignment is one possible outcome of managing risk.
 1. A “turn down” is a situation where the individual has determined they cannot undertake an assignment as given **and** they are unable to negotiate an alternative solution. The turn down of an assignment must be based on the assessment of risks and the ability of the individual and the organization to control those risks.
 2. The process for turning down an assignment under these circumstances will follow the model set forth by the National Wildfire Coordinating Group in the Fireline Handbook/Incident Response Pocket Guide (NWCG Handbook 3, PMS 410-1, NFES 0065, March 2004 Ed.)

8. PARAMEDIC CERTIFIED PERSONNEL – MUTUAL AID

- A. In accordance with Title 22, Article 5, 100166; Accreditation to Practice sections 1797.7, 1797.107, 1797.172, 1797.185 and Health and Safety Code sections 1797.7, 1797.172, 1797.185 and 1797.214, the following applies to qualified/certified paramedics while assigned to mutual aid incidents.
 1. During a mutual aid response into another jurisdiction, a paramedic may utilize the scope of practice for which they are trained and accredited according to the policies and procedures established by their local accrediting EMS Agency.
 2. When operating outside of the ICEMA region (San Bernardino County, Inyo county, and Mono County) paramedics shall use the

current ICEMA approved protocol, including those skills and medications allowed during Radio Communication Failure (RCF).

3. All medical assessment and treatment shall be documented in accordance with ICEMA protocol. If the medical care is rendered while the unit is checked in to the incident, a copy of the documentation shall be left with the incident's base camp medical unit leader.
4. The completed original ICEMA form O1A (or electronic PCR equivalent) shall be filed with the paramedic's own department/agency after their return, prior to their release from duty.
5. Local agencies should confer with their local medical director, and review their local EMS agency policies for related subject matter.

IMMEDIATE NEED STRIKE TEAM/ TASK FORCE PROCEDURES WITHIN SAN BERNARDINO COUNTY OPERATIONAL AREA ONLY Revised April 2008

PURPOSE

The purpose of this policy is to provide guidance to strike team leaders, incident commanders and Operational Area fire chiefs as to the procedures in which an immediate need Strike Team/Task Force (ST/TF) shall be deployed for emergency assignments within the San Bernardino County Operational Area (OA).

This policy does not address ST/TF requests for planned-need ST/TFs nor does it pertain to ST/TF requests for assignments out of the Operational Area or Mutual Aid Region.

This policy pertains to all Immediate Need ST/TF requests within the San Bernardino County Operational Area. It should be further noted that ST/TFs needed for other operational-periods should not be ordered as immediate need resources.

DEFINITION

An immediate need strike team is defined as five like-type fire engines, with common communications, and a qualified strike team leader who can respond to an immediate need request within five (5) minutes of receiving the request for mobilization. These same parameters define an immediate need task force, with the exception that the resources assigned to the task force may not be of the same resource typing.

An immediate need ST/TF requested within the San Bernardino County Operational Area should be filled with San Bernardino County Operational Area resources, if available and dispatched directly to the scene of the emergency. Personnel shall be trained according to the California Incident Command Certification System (CICCS) for their assignments and they shall be provided all necessary Personal Protective Equipment (PPE) prior to mobilization. Radio frequency availability shall be in accordance with the FIRESCOPE Field Operations Guide (FOG) 420-1.

POLICY

The decision for requesting immediate need ST/TFs resides with the Incident Commander of the incident requesting assistance. Immediate need ST/TFs will be requested when there is an imminent threat to life or property, and in instances where staging apparatus or forming-up ST/TFs in a five-unit configuration for synchronized mobilization is not in the best interest of public safety.

When an Immediate Need ST/TF is requested, the following actions shall take place.

- The appropriate dispatch center, following their existing policies, shall fill the order for immediate need resources based on the type of request received (Strike Team or Task Force) with the CLOSEST RESOURCE CONCEPT and notify the Zone Coordinator.
- All units shall respond within five (5) minutes and shall respond directly to the Incident Command Post (ICP), or designated staging area unless otherwise specified prior to arrival.
- The first arriving unit from the Immediate Need ST/TF shall act as the Team Liaison (TL) and obtain a safety briefing from the most appropriate personnel on-scene (example, the Incident Commander, the Operations Section Chief, Division/Group Supervisor and/or Incident Safety Officer). The TL shall also advise the aforementioned that the additional arriving units from the ST/TF should be assigned to the same division/group as appropriately based on current conditions.

- The TL shall make every attempt to contact the responding ST/TF and provide assignment information and best known communications channel (FIREScope Field Ops Guide 420-1) and frequency/talk group prior to unit deployment.
- The TL shall pass along and document on their respective ICS Form 214, the safety briefing for the next arriving ST/TF units until relieved by the Strike Team Leader (STL).
- As subsequent units arrive, they are to make contact with the TL for their assignment unless otherwise directed by the incident personnel.
- When the STL arrives at the incident, his/her first priority is to make contact with the appropriate personnel for an updated safety briefing and tactical assignment, and then proceed to his/her resources at their current location.
- The County Fire Chiefs' Association has a standing policy of allowing five (5) single resource engines the ability to mobilize along the San Bernardino County / Riverside County line to support our neighboring county without sending them in a strike team or task force configuration, and without any overhead (STL). This policy does not change the ability for these resources to be requested or mobilized along the county line.

SAFETY BRIEFINGS

Safety briefing should include the following topics, and the engine captains and STL shall document on their respective ICS Form 214.

- Personal safety
- Proper PPE
- 18 Watch Out Situations
- Ten Standard Fire Orders
- Look Out, Communications, Escape Routes, Safety Zones (LCES)
- Current drought conditions
- Tree mortality issues if in forest areas and fuel conditions
- Extreme fire behavior experienced in recent years within the XBO OA

SPECIAL EMPHASIS

Special emphasis shall be given in the following areas.

- Engine captains shall make every effort to obtain the STL's cell phone number while en route from their respective dispatch center. All STL's have cell phones; their respective dispatch centers have their phone numbers available. DO NOT MAKE IT THE RESPONSIBILITY OF THE STL TO PROVIDE HIS/HER PHONE NUMBER. SEEK HIS/HER PHONE WHILE EN ROUTE AND MAKE DIRECT CONTACT.
- Engine Captains shall provide their personnel safety briefings while en route to the emergency and document those briefings on their respective ICS Form 214's.
- As feasible, the STL's obtain a safety briefing prior to engagement, and shall pass that briefing along to all units as they arrive and document the briefings.
- STL's upon arrival shall receive a safety briefing and then ensure all units assigned to the ST/TF have

SAN BERNARDINO COUNTY (XBO), Region VI
ENGINE ST/TF
CODE of CONDUCT

1. Regard assignments as any other emergency response, this is not a vacation.
2. Utilize clear-text communications. Keep radio traffic between units to a minimum.
3. Crews shall maintain a state of readiness when assigned or available.
4. Know who you are assigned to. Maintain crew accountability.
5. Limit the procurement of equipment to what is needed. All equipment shall be checked out by the STLD/TFLD or designee.
6. All equipment issued at the incident must be returned before you are demobilized. Theft of equipment is a crime.
7. Maintain and wear all proper safety clothing whenever assigned. Wear the proper uniform or attire while in the incident base.
8. Recreation will be limited to out-of-service hours and shall consist of those activities approved by the STLD/TFLD.
9. No alcohol or illicit drugs will be transported or consumed at any time.
10. Cell phone usage for personal calls shall be restricted to periods when resources are available or out of service (non-assigned periods).
11. Do not enter any residence without the owner's permission except to search or defend the structure. Respect the property of the residents you are protecting. If you enter a private residence or business, leave a note identifying your ST/TF and detailing your actions taken.
12. All Firefighters shall be empowered to halt any unsafe or hazardous acts in which the risks outweigh the benefits.
13. Wear seatbelts whenever in moving vehicles traveling to, from, or on any incident.
14. Attend safety briefings prior to assignments, if possible. Emphasize a safe working environment for all members.
15. Assess personnel for injuries during and after work periods. Report all injuries immediately.
16. Always act in a professional manner.
17. Your actions are a reflection of your organization, XBO County, and the Fire Service as a whole.
18. Violation of these rules may be grounds for dismissal from the ST/TF assignment.

I, the undersigned, have read and fully understand the above rules.

(signature) (print title, name, agency designator)

(crew member initials)

(date) (incident name, ST/TF #)

9. STRIKE TEAM NUMBER PROCEDURE

A. Single Agency Strike Teams (Example: San Bernardino County)

Restat Format: BDC ST-6270-A (numbers run from 6270 to 6279 for XBO)
Radio Call: "BDC Strike Team Sixty-Two-Seventy-A"
[Note: This is when the strike team responds out-of-county]

B. Mixed Agency Zone Strike Team (Example: Zone 2)

Restat Format: XBO ST-6220-A (numbers from 6220 to 6229 for Zone 2)
Radio Call: "XBO Strike Team Sixty-Two-Twenty-A"

C. CALFIRE Strike Teams

Restat Format: BDU ST-9350-C (Engine numbers run 9350 to 9357; dozer numbers run 9358 to 9359)
Radio Call: "BDU Strike Team Ninety-Three-Fifty-C"

D. U.S. Forest Service Strike Teams

Restat Format: BDF ST-6600-C (Engine numbers run 6600 to 6630)
Radio Call: "BDF Strike Team Sixty-Six-Zero-Zero-C"

Mutual Aid Zone 1 West Valley
San Bernardino County

June 2010

OPERATIONAL AREA ZONES

ZONE 1 – WEST VALLEY AREA

Zone 1 is comprised of agencies in the west end of the San Bernardino Valley, generally west of Etiwanda Avenue. Resources available from within Zone 1 include Types 1, 2, 3 and 4 engines, breathing support units, mobile communication units, field mobile mechanics, ALS and BLS squads, hazardous materials units, ALS and BLS rescues, MCI trailers, water tenders, truck companies and quints, light support units, foam units, air crash units, USAR units and a bomb squad. Zone 1 agencies employ a combination of full-time, reserve, paid-call and volunteer firefighters.

Participating Fire Agencies:

- Chino Valley Fire Protection District
- San Bernardino County Fire Department
- Chino Institute for Men Fire Department
- Chino Institute for Woman Fire Department
- Montclair Fire Department
- Mt. Baldy Fire Department
- Ontario Fire Department
- Rancho Cucamonga Fire Protection District
- Upland Fire Department
- Ontario International Airport Fire Department

Specialized Equipment:

- Bomb Squad – 1
- Hazardous Materials Unit – 2 (Joint)
- Breathing Support Unit – 1 (Joint) Ontario Airport
- Illumination Unit – 1 Ontario Airport
- Swift Water Rescue Unit – 1
- CAFS Water Tender – 1
- Canine Flammable Liquid Detection – 1
- Medium Rescues – 3
- Heavy Rescue – 1
- Mass Decontamination Unit – 1
- Thermo Gel Units – 4
- Airport Crash Rescue Units – 5
- Rescue Boat – 1
- 3% AFFF Foam Tender – 1 Ontario Airport
- Canine Bomb Detection – 6 Ontario Airport
- Mass Casualty Supply – Ontario Airport
- ALS Helicopter – 1 Upland Fire Dept
- Mobile Command Unit – 1 Upland Fire Department

The above agencies adhere to the State Master Mutual Aid System. Request for strike teams, task forces, and specialized equipment are processed through the Ontario Communications Center in accordance with the standard mutual aid procedures as developed by the San Bernardino Operational Area Fire and Rescue Coordinator.

The Joint Agency Communications Center is maintained by the Ontario Police Department and serves as the Zone 1 Emergency Communications Center. This center provides communication services to five of the West End fire agencies and the Ontario Police Department.

The Ontario Zone 1 Dispatch Center, known as "Ontario Comm", is located at 2500 S. Archibald Avenue, Ontario. The Forest Service areas around Mt. Baldy are dispatched by the Angeles National Forest Dispatch Center located in Los Angeles County at 4503 W. William Barnes Avenue in Lancaster. The remaining dispatch centers for this area are located in Zone 2. CAL-FIRE dispatches for the State areas around Chino, Upland and Rancho Cucamonga. Their center is located at 3800 N. Sierra Way in the city of San Bernardino. San Bernardino County ConFire Dispatch known as "Comm Center" is located at 1743 W. Miro Way in Rialto. They dispatch for the Rancho Cucamonga, San Antonio Heights and Mt. Baldy areas. The Forest Service areas in the mountains east of Mt. Baldy are dispatched from their own interagency dispatch center located at 602 S. Tippecanoe Avenue in San Bernardino.

The local West Valley agencies are members of a comprehensive automatic aid system, which includes response by the nearest units regardless of agency boundaries on initial alarm through multiple alarm situations. The mutual aid agreement also includes responses to and from areas within Los Angeles County, specifically those areas on the border of Los Angeles County and fire stations covering the cities of Claremont and Pomona; responses with the CALFIRE; and automatic initial and multiple alarm responses with the San Bernardino County Fire Department. Mt. Baldy has similar agreements with CALFIRE, United States Forest Service, and Los Angeles County.

San Bernardino County

Mutual Aid Zone 2 East Valley

June 2010

OPERATIONAL AREA ZONES

ZONE 2 – EAST VALLEY AREA

Zone 2 is comprised of agencies in the east end of the San Bernardino Valley, generally east of Etiwanda Avenue. Resources available from within Zone 2 include Type 1, 2, 3 and 4 engines, bulldozers with tenders, incident support vehicles, command posts, heavy equipment transports, utility transports, breathing support units, mobile communication units, MCI trailers, field mobile mechanics, ALS and BLS squads, hazardous materials units, ALS and BLS rescues, water tenders, truck companies and quints, light support units, foam units, air crash units and USAR units. Zone 2 agencies employ a combination of full-time, reserve, paid-call and volunteer firefighters.

Participating Fire Agencies:

- Colton Fire Department
- Fontana Fire Department (Contract w/ San Bernardino County FD)
- Highland Fire Department (Contract w/ CALFIRE)
- Loma Linda Department of Public Safety
- Redlands Fire Department
- Rialto Fire Department
- San Bernardino County Fire Department
- San Bernardino City Fire Department
- San Manuel Fire Department
- Yucaipa Fire Department (Contract w/ CALFIRE)

Specialized Equipment:

- Breathing Support Units – 2
- Class B Foam Unit - 1
- Hazardous Materials Units – 2
- Thermo Gel Units – 2
- MCI Trailer – 1
- Airport Crash Rescue Units – 2
- Heavy Rescue Units – 3
- Communications Support Unit – 1
- Command Post Units – 2
- Decon Trailer - 1

The above agencies adhere to the State Master Mutual Aid System and a local Mutual Aid Agreement. Requests for strike teams, task forces and specialized equipment are processed through the San Bernardino County Communications Center in accordance with the standard mutual aid procedures as developed by the San Bernardino Operational Area Fire and Rescue Coordinator.

The San Bernardino County Sheriff's Department Aviation Division is also located in Zone 2 at 1776 W. Miro Way, Rialto. This division has available to local fire service agencies, during daylight hours, a Type 2 rescue helicopter with "hoist" capability that doubles as an air ambulance. They also have water-dropping helicopters available. This resource is available through the San Bernardino County Communications Center.

The San Bernardino County ConFire Communications Center, known as "Comm Center", serves as the Zone 2 Emergency Communications Center and is located at 1743 W. Miro Way, Rialto. They are responsible for the dispatch functions of the Consolidated Fire Agencies of the East San Bernardino Valley Joint Powers Authority (CONFIRE) agency, whose members in Zone 2 include the Rialto Fire Department, Loma Linda Fire Department, Colton Fire Department, Redlands Fire

Department and the San Bernardino County Fire Department communities of Mentone, Devore, Grand Terrace, Lytle Creek and Fontana Fire Department.

CAL-FIRE dispatches for the cities of Highland and Yucaipa. The CALFIRE dispatch center is located at 3800 N. Sierra Way in the city of San Bernardino. The City of San Bernardino maintains their own dispatch center. .

The fire agencies in Zone 2 operate a variety of automatic joint response agreements with all surrounding jurisdictions. These agencies have also developed a joint Task Force Operation plan for the pre-staging of equipment at designated locations when extreme weather/fire conditions exist.

San Bernardino County
 Mutual Aid Zone 3 Mountains

June 2010

ZONE 3 AGENCIES

- ARROWBEAR LAKE FIRE DEPARTMENT
- BIG BEAR CITY FIRE DEPARTMENT
- BIG BEAR LAKE FIRE PROTECTION DISTRICT
- CREST FOREST FIRE PROTECTION DISTRICT
- RUNNING SPRINGS FIRE DEPARTMENT
- SAN BERNARDINO CO FIRE DEPARTMENT

OPERATIONAL AREA ZONES

ZONE 3 – MOUNTAINS AREA

Zone 3 is comprised of agencies in the resort area of the San Bernardino Mountains and extends from Crestline through Big Bear. Resources available from within Zone 3 include Type 1, 2, 3 and 4 engines, snow cats, breathing support units, ALS and BLS squads, ALS and BLS rescues, fire boats, MCI trailers, water tenders and USAR units. Zone 3 agencies employ a combination of full-time, reserve, paid-call and volunteer firefighters.

Participating Fire Agencies:

- Big Bear Fire Authority
- Running Springs Fire Department
- Arrowbear Lake Fire Department
- San Bernardino County Fire Department

Specialized Equipment:

- Heavy Rescue Units – 1
- Thermo Gel Units – 2
- Snow Cats - 10
- CAFS Units – 2
- Rescue Boats – 2
- Decon Trailer – 1
- Loaders – 3
- MCI Trailers – 10
- USAR Trailer - 1

The above agencies adhere to the State Master Mutual Aid System. Request for strike teams, task forces, and specialized equipment are processed through the San Bernardino County Communications Center (“Comm Center”) located in Zone 2 in accordance with the standard mutual aid procedures as developed by the San Bernardino Operational Area Fire and Rescue Coordinator.

The San Bernardino County ConFire Communications Center, located at 1743 W. Miro Way, Rialto, is the Zone 3 Emergency Dispatch Center and provides dispatching service for Lake Arrowhead, Forest Falls, Green Valley Lake, Running Springs, Fawnskin, Big Bear Fire Authority and Angelus Oaks. Arrowbear Lake Fire is dispatched by the CAL-FIRE San Bernardino Unit dispatch center, which is in Zone 2 at 3800 N. Sierra Way, San Bernardino.

The mountain agencies are members of a comprehensive automatic aid system, which includes responses by the nearest units regardless of agency boundaries on initial alarm through multiple alarm situations. In addition, all agencies have automatic and mutual aid agreements with the United States Forest Service whose jurisdiction overlaps and surrounds those communities in the Mountains.

**Mutual Aid Zone 4 High Desert
San Bernardino County**

June 2010

OPERATIONAL AREA ZONES

ZONE 4 – HIGH DESERT AREA

Zone 4 is comprised of agencies in the Victor Valley, Barstow and Lucerne Valley areas. It also includes agencies in the Searles Valley and Trona areas. Resources available from within Zone 4 include Type 1, 2, 3 and 4 engines, breathing support units, ALS and BLS squads, ALS and BLS rescues, foam units, air crash units, truck companies, snow cat, hazmat units, field mobile mechanics, mobile communication units, MCI trailers, water tenders and USAR units. Zone 4 agencies employ a combination of full-time, reserve, paid-call and volunteer firefighters.

Participating Fire Agencies:

- Apple Valley Fire Protection District
- Barstow Fire Protection District
- China Lake Naval Air Weapons Station
- Daggett Community Service District
- Fort Irwin Fire Department
- Newberry Springs Community Service District
- Searles Valley Minerals Fire Department (Trona)
- San Bernardino County Fire Department
- Yermo Community Service District
- Barstow Marine Corps Logistics Base

Specialized Equipment:

- Thermo Gel Units – 5
- Hazardous Materials Units – 2
- Snow Cat - 1
- Command Post Units – 2
- Breathing Support Units – 3
- MCI Trailers – 4
- Light Unit – 1
- Rehab Unit – 1
- Decon Trailer - 1
- Rescue Unit -6
- Airport Crash Rescue Unit - 3

The above agencies adhere to the State Master Mutual Aid System. Request for strike teams, task forces, and specialized equipment are processed through the San Bernardino County ConFire Communications Center in accordance with the standard mutual aid procedures as developed by the San Bernardino Operational Area Fire and Rescue Coordinator.

CAL-FIRE provides dispatch services to Daggett Fire, Newberry Springs Fire and Yermo Fire. Their dispatch center is located at 3800 N. Sierra Way, San Bernardino.

The San Bernardino County ConFire Communications Center known as “Comm Center”, located in Zone 2 at 1743 W. Miro Way, Rialto provides dispatch services to Wrightwood, Pinon Hills, Phelan, El Mirage, Hinkley, Helendale, Harvard, Trona, Lucerne Valley, Adelanto, Hesperia, Barstow, Apple Valley and Victorville. Fort Irwin Fire and the Barstow Marine Base are provided communications services by their own dispatch centers located aboard those bases.

Local response systems are developed through the local agencies to provide for the day-to-day mutual aid needs and for the automatic response procedures adopted to assemble mutual aid companies on short notice through the central dispatch center.

Mutual Aid Zone 5 Morongo
 San Bernardino County

June 2010

OPERATIONAL AREA ZONES

ZONE 5 – MORONGO BASIN AREA

Zone 5 is comprised of agencies in the Morongo Basin area generally north of the Riverside County Line, east of Morongo Valley and northwesterly into Johnson Valley. Resources available from within Zone 5 include Type 1, 2, 3 and 4 engines, breathing support units, BLS squads, BLS rescues, truck companies, hazmat units, MCI trailers, water tenders and USAR units. Zone 5 agencies employ a combination of full-time, reserve, paid-call and volunteer firefighters.

Participating Fire Agencies:

- Twentynine Palms Fire Department
- Twentynine Palms Combat Center Fire Department
- Morongo Valley Community Services District
- San Bernardino County Fire Department

Specialized Equipment:

- Lighting Units – 2
- Lighting Rescue - 2
- Breathing Support Units – 2
- Hazardous Materials Units – 2
- Decon Trailer - 1
- Medium Rescue Unit – 1
- Swift Water Rescue Unit – 1
- MCI Trailers - 2

The above agencies adhere to the State Master Mutual Aid System. Request for strike teams, task forces, and specialized equipment are processed through the San Bernardino County Communications Center in accordance with the standard mutual aid procedures as developed by the San Bernardino Operational Area Fire and Rescue Coordinator.

The San Bernardino County ConFire Communications Center (“Comm Center”), located in Zone 2 at 1743 W. Miro Way in Rialto, is the Zone 5 Emergency Dispatch Center and provides dispatching service for Yucca Valley, Yucca Mesa, Pioneertown, Landers, Flamingo Heights, Johnson Valley, Panorama Heights, Joshua Tree, Sunfair, Copper Mountain, Twentynine Palms, and Wonder Valley. Several other dispatch centers support departments in this area. Morongo Valley Fire is dispatched by the CALFIRE San Bernardino Unit dispatch center, which is in Zone 2 at 3800 N. Sierra Way, San Bernardino. The 29 Palms Combat Center Fire Department is provided communications services by their own dispatch center aboard the base.

The Agencies in Zone 5 are members of a comprehensive automatic aid and mutual aid system, which includes response by the nearest units regardless of agency boundaries on initial alarm through multiple alarm situations. They also operate a variety of joint responses with San Bernardino and Riverside CALFIRE in the State Responsibility Area lands and with the Joshua Tree National Park and Bureau of Land Management.

ZONE 6 AGENCIES

- BAKER COMMUNITY SERVICE DISTRICT
- CITY OF NEEDLES (Contract w/ SAN BERN COUNTY FIRE DEPT)
- SAN BERNARDINO COUNTY FIRE DEPARTMENT

Mutual Aid Zone 6 East Desert
 San Bernardino County

June 2010

OPERATIONAL AREA ZONES

ZONE 6 – EAST DESERT AREA

Zone 6 is comprised of areas in the eastern desert regions of San Bernardino County. This generally is east of Ludlow along the I40 freeway, the I15 freeway area north of Afton Canyon, north of the Twentynine Palms Marine Base and east of the Morongo Basin. The bulk of the resources in the Zone are located in communities along the Colorado River. Resources available from within Zone 6 include Type 1, 2, 3 and 4 engines, BLS rescues, MCI trailers, water tenders and a fireboat. Zone 6 agencies employ a combination of full-time, reserve, paid-call and volunteer firefighters.

Participating Fire Agencies:

Baker Community Services District
Needles Fire Department (Contract w/ San Bernardino County FD)
San Bernardino County Fire Department

Specialized Equipment:

Fire Boats - 2
Thermo Gel Unit – 1
MCI Trailer – 1

Several mutual aid agreements are maintained with entities in the State of Arizona.

The above agencies adhere to the State Master Mutual Aid System. Request for strike teams, task forces, and specialized equipment are processed through the San Bernardino County Communications Center in accordance with the standard mutual aid procedures as developed by the San Bernardino Operational Area Fire and Rescue Coordinator.

The San Bernardino County ConFire Communications Center (“Comm Center”), located in Zone 2 at 1743 W. Miro Way in Rialto, is the Zone 6 Emergency Dispatch Center and provides dispatching service for Needles, Havasu Landing, Black Meadow Landing, Baker, Big River, Parker, Earp, Iron Mountain, Rice, Parker Dam, and Park Moabi.

In addition, Comm Center provides dispatch services for the Baker Ambulance Company, which has units stationed in both Baker and Needles.

The Agencies in Zone 6 are members of a comprehensive automatic aid and mutual aid system, which includes response by the nearest units regardless of agency boundaries on initial alarm through multiple alarm situations. They also operate a variety of joint responses with Riverside CALFIRE in the areas along the Riverside County Line and with the Bureau of Land Management, both in California and Arizona.

Mutual Aid Zone 7 BDC
San Bernardino County

April 2012

OPERATIONAL AREA ZONES

ZONE 7 - SAN BERNARDINO COUNTY FIRE DEPARTMENT

The San Bernardino County Fire Department encompasses approximately 18,821 square miles of the County of San Bernardino. The Department is divided into four geographic regional service zones with a centralized management structure based in San Bernardino. The County Fire Department also contracts to provide fire protection services for the Cities of Adelanto, Needles, Fontana, Hesperia, and Victorville.

The County Fire Department currently provides emergency service and management from 60 fire stations that offer all-risk, all type emergency response within their respective community and throughout the County. Each Regional Service Zone has equipment and trained personnel for Hazmat, USAR, and other specialized equipment for emergency incident response needs. This is a combination department utilizing full-time, seasonal, and paid call personnel.

The County Fire Department Headquarters is located at 157 West Fifth Street, 2nd floor, San Bernardino, CA 92415-0451.

The Department has numerous automatic and mutual aid agreements with most of the allied response and fire agencies within San Bernardino County.

The Dispatch Center for the San Bernardino County Fire Department is the County Communications Center (Comm. Center) located at 1743 W. Miro Way, Rialto, CA 92376

Mutual Aid Zone 8 USFS

San Bernardino County

June 2010

Legend

-  USFS Stations
-  USFS Lands

OPERATIONAL AREA ZONES

ZONE 8 – USFS SAN BERNARDINO NATIONAL FOREST

Zone 8 includes all National Forest land in San Bernardino County and is administered by the Forest Supervisor of the San Bernardino National Forest. All their fire resources are administered and supervised by the Forest's Fire Management Officer (Chief) in the supervisor's office.

The Headquarters and Interagency Dispatch Center for Zone 8 are located at 602 S. Tippecanoe Avenue in San Bernardino. They have 17 stations in the County and their combined resources include both full-time and seasonal personnel. Equipment available to them include type 3 and 4 engines, water tenders, helicopters, bulldozers, air tankers, heli-tankers and both hot-shot and standard hand crews. Equipment availability varies, depending on whether we're in fire season or not.

All of their Chief Officers, engines, prevention patrols and aircraft are equipped with synthesizer radios that have the capability to communicate with all fire agencies in the County except those which are in the 800-mhz frequency range.

Within the Forest administrative boundary, wildland fire protection for State Responsibility lands as defined in the Cooperative Agreement with CALFIRE is provided by the United States Forest Service. Zones 1 through 4 work closely with the USFS on fire responses that threaten or burn USFS lands.

The San Bernardino National Forest Interagency Dispatch Center adheres to the State Master Mutual Aid System. Request for strike teams, task forces, and specialized equipment are processed in accordance with the standard mutual aid procedures as developed by the United States Government, State of California and by the San Bernardino Operational Area Fire and Rescue Coordinator.

They have mutual aid agreements with the following fire agencies in San Bernardino County.

- Rancho Cucamonga
- Apple Valley
- San Bernardino City
- San Bernardino County
- Big Bear Fire Authority
- Running Springs
- Highland / CALFIRE
- Yucaipa / CALFIRE
- Colton
- Loma Linda
- Redlands
- San Manuel

Mutual Aid Zone 9 - BLM

San Bernardino County

June 2010

Legend

-  BLM Stations
-  Bureau of Land Management

OPERATIONAL AREA ZONES

ZONE 9 – BUREAU OF LAND MANAGEMENT

The California Desert District of the Bureau of Land Management (BLM) is responsible for Zone 9 fire responses. It consists of 10.4 million acres of public land of which only 500,000 are under agreement to CALFIRE. The District consists of public lands located in Imperial, Riverside, San Diego, Los Angeles, Kern, Inyo and San Bernardino Counties. All BLM lands in San Bernardino County are within the California Desert District boundaries. BLM and National Park Service operate under a joint fire program that provides fire coverage for Death Valley National Park, Joshua Tree National Park and Mojave National Preserve (4.9 million acres). BLM/NPS currently have five (5) stations within the County:

- Hole In The Wall – located 20 miles north of the town of Essex in the Mojave National Preserve (two (2) Type III engines)
- Apple Valley – located in the northern portion of the Town of Apple Valley (two (2) Type III engines)
- Salt Wells – located 5 miles east of Ridgecrest
- Black Rock – located in the Joshua Tree National Park just south of Yucca Valley
- Morongo - Located on Highway 62 between Morongo Valley and Yucca Valley

They have Field Offices located in Barstow, Palm Springs and Needles.

BLM is basically a wildland fire protection organization. Outside of fire season, their equipment is available but delays can be expected for immediate response.

Their District Headquarters is located at 22835 Calle San Juan De Los Lagos in Moreno Valley. Their dispatch center is the San Bernardino National Forest Interagency Dispatch at 602 S. Tippecanoe Avenue in San Bernardino. They have engines, water tenders and a type 2 water dropping helicopter with on-board fly crew available.

They employ a combination of full-time and seasonal personnel.

They have aid agreements with the following fire agencies in San Bernardino County.

- Automatic aid to CALFIRE for areas that are a threat to public lands
- Automatic aid to the San Bernardino National Forest
- Automatic aid to the Joshua Tree NP, Death Valley NP & Mojave National Preserve
- Automatic aid to Apple Valley
- Automatic aid to San Bernardino County
- Zones 4, 5 & 6 work closely with BLM on fire responses that threaten or burn BLM lands

The San Bernardino National Forest Interagency Dispatch Center adheres to the State Master Mutual Aid System. Request for strike teams, task forces, and specialized equipment are processed in accordance with the standard mutual aid procedures as developed by the United States Government, State of California and by the San Bernardino Operational Area Fire and Rescue Coordinator.

Mutual Aid Zone 10 CALFIRE

San Bernardino County

April 2012

Legend

- CDF Stations
- SRA

OPERATIONAL AREA ZONES

ZONE 10 – CALFIRE

Zone 10 is a county-wide, agency specific, zone that includes all resources and state responsibility areas protected by CALFIRE – San Bernardino Unit. Each geographical zone has SRA lands within its boundaries which require close coordination with all fire agencies. In addition to state responsibility areas, CALFIRE is responsible for fire protection on Bureau of Indian Affairs land.

The Headquarters and Emergency Command Center for Zone 10 is located at 3800 N. Sierra Way in San Bernardino. The department has 2 conservation camps and 6 fire stations in the County that house 8 hand crews, 11 engines, 1 bulldozer and 1 bulldozer tender during fire season. Outside of fire season, the amount of available equipment is less.

During fire season, a type 2 water dropping helicopter is available through the CAL-FIRE contract with the San Bernardino County Sheriff's Department. The helicopter and fly crew (inmate firefighters) are located at the Prado Conservation Camp in Chino.

They employ a combination of full-time and paid-call firefighters.

The CALFIRE Emergency Command Center adheres to the State Master Mutual Aid System. Request for strike teams, task forces, and specialized equipment are processed in accordance with the standard mutual aid procedures as developed by the State and by the San Bernardino Operational Area Fire and Rescue Coordinator.

The CALFIRE dispatch center, located in Zone 2 at 3800 N. Sierra Way, San Bernardino is the Zone 10 Emergency Dispatch Center.

Mutual Aid Zone 11 OES Region 6

San Bernardino County

June 2010

OPERATIONAL AREA ZONES

ZONE 11 – OFFICE OF EMERGENCY SERVICES

The State of California, Fire and Rescue Emergency Plan, consists of a mutual aid system that includes CalEMA owned fire and rescue resources (OES) that are operated by local agencies and can be mobilized during emergency situations throughout the State.

The County of San Bernardino is located within Mutual Aid Region VI and has a number of State-owned resources distributed to several agencies. For effective coordination into the County system, the OES equipment has been placed into its own zone. This equipment may be called to emergencies outside of Region 6.

The dispatch of OES equipment in the County for mutual aid assignments is done by the San Bernardino County ConFire Communications Center, known as “Comm. Center” (Op Area Dispatch) which is located in Zone 2 at 1743 W. Miro Way in Rialto.

Zone 11 is coordinated by the OAFRC (Operational Area Fire and Rescue Coordinator), and the current distribution of equipment is as follows:

Motorized Fire Equipment	Agency Assignment	Location
OES 309	Crest Forest Fire District	Zone 3
OES 310	San Bernardino County Fire Department – Fontana	Zone 2
OES 311	San Bernardino County Fire Department – Lake Arrowhead	Zone 3
OES 328	Barstow Fire Department	Zone 4
OES 330	Colton Fire Department	Zone 2
OES 331	Montclair Fire Department	Zone 1
OES 335	Apple Valley Fire Protection District	Zone 4
OES 342	Ontario Fire Department	Zone 1
OES WT61	Chino Valley Independent Fire District	Zone 1

This page left intentionally blank

III. COMMUNICATIONS

This page left intentionally blank

III. COMMUNICATIONS

It is anticipated that this system will allow for growth of this County's Fire Service through the year 2020. This plan utilizes portions of the old county-wide system and also includes a new common designator plan for all suppression and rescue equipment within the County.

Each fire station within the County has been assigned a distinct number. Each piece of equipment has been assigned a distinct plain language designator. Additional like equipment in the same station will have an alphabetical letter starting with "A", placed behind the equipment number indicating that there is like equipment within that station. Reserve equipment will also have an alphabetical letter such as "R" placed behind the equipment number indicating the equipment's status and station assignment.

Administrative staff would continue using the current department number assignments and would be placed on one-hundred block designations (see below). However, all staff would use a plain language designator along with the number assignment (see examples below):

- 00 Fire Chief (personal designation)
- 01-49 Administrative (Deputy Chief and below)
- 50-89 Prevention (Inspectors, Arson Investigators, Training)
- 90-99 Mechanics

ADMINISTRATION EXAMPLES

"Chief 4700"	Barstow Fire Chief
"Division 1809"	Ontario Division Chief
"Prevention 258"	San Bernardino County Fire Prevention Officer
"Battalion 608"	San Bernardino City Battalion Chief
"Repair 790"	Redlands Fire Mechanic
"Deputy 1101"	Loma Linda Deputy Chief

SUPPRESSION, RESCUE AND SUPPORT EQUIPMENT EXAMPLES

San Bernardino City Station 221

"Station 221"	"Medic Engine 221"	"Squad 221"
"Engine 221A"	"Air Light 221"	"Engine 221R"
"Water Tender 221"	"Truck 221"	"Utility 221"
"Rescue 221"		

Victorville Fire Station 311

**SAN BERNARDINO COUNTY
FIRE CHIEFS' ASSOCIATION
VHF TACTIAL FREQUENCY PLAN**

The attached frequency grid is designed to work throughout all the fire jurisdictions within San Bernardino County. For it to function smoothly, it requires the complete coordination of all the fire dispatch centers in the County.

These dispatch centers include:

- ConFire JPA Communications (Comm Center)
- Ontario Fire Communications
- California Department of Forestry
- San Bernardino City Fire Communications
- Federal Inter-Agency Dispatch Center

The channel names and their assigned frequencies on the grid are listed below:

CHANNEL NAME	FREQUENCY
APP Gray	154.205
BDC V15 tn7	153.830
BDC V16 tn5	154.025
BDC V17 tn7	154.070
