Potential for the Presence of Historical Resources:

Based on available information, the **potential** for the presence of historical resources within the project area is:

Prehistoric Archaeological Resources:	Low
Historic Archaeological Resources:	Low
Historic Resources:	Low
Cultural Landscapes:	Unknown
Ethnic Resources:	Unknown

**Comments: Low potential for all types of resources. No further archaeological work is recommended.**

Recommendations: (following CEQA and NEPA guidelines)

No further archaeological work is recommended at this time; however, if prehistoric or historic resources over 50 years of age are encountered during land modification, then activities in the immediate area of the finds should be halted so that the archaeologist can assess the find, determine its significance, and make recommendations for appropriate mitigation measures within the guidelines of the California Environmental Quality Act and/or the Federal National Environmental Policy Act.

If human remains are encountered on the property, then the San Bernardino County Coroner's Office **MUST** be contacted within 24 hours of the find, and all work halted until a clearance is given by that office and any other involved agencies. Contact the County Coroner at 175 South Lena Road, San Bernardino, CA 92415-0037 or (909) 387-2543.

If you have any further questions, please, contact me at (909) 307-2669 x 255, Monday through Friday between 8 AM and 4 PM.
