Re: Route 66 Gas Station, Helendale CA

The South Central Coastal Information Center received your records search request for the project area referenced above, located on the Helendale, CA USGS 7.5' quadrangle. The following summary reflects the results of the records search for the project area and a ½-mile radius. The search includes a review of all recorded archaeological and built-environment resources as well as a review of cultural resource reports on file. In addition, the California Points of Historical Interest (SPHI), the California Historical Landmarks (SHL), the California Register of Historical Resources (CAL REG), the National Register of Historic Places (NRHP), the California State Historic Properties Directory (HPD) listings were reviewed for the above referenced project site. Due to the sensitive nature of cultural resources, archaeological site locations are not released.

RECORDS SEARCH RESULTS SUMMARY

| | |
|--|--|
| Archaeological Resources | Within project area: 0 Within project radius: 0 |
| Built-Environment Resources | Within project area: 0 Within project radius: 0 |
| Reports and Studies | Within project area: 0 Within project radius: 3 |
| OHP Historic Properties Directory (HPD) | Within project area: 0 Within project radius: 0 |
| California Points of Historical Interest (SPHI) | Within project area: 0 Within project radius: 0 |
| California Historical Landmarks (SHL) | Within project area: 0 Within project radius: 0 |
| California Register of Historical Resources (CAL REG) | Within project area: 0 Within project radius: 0 |
| National Register of Historic Places (NRHP) | Within project area: 0 Within project radius: 0 |

HISTORIC MAP REVIEW – Victorville, CA (1934) USGS 15': indicated that in 1934, there was little to no visible development within the project site; however, there were five roads and several buildings within the vicinity of the project area. The Atchison Topeka and Santa Fe Railroad ran to the east of the project site and the Mojave River ran to the west of the project site. There was one school visible within the vicinity of the project area. Historic place names nearby included Las Cruces Ranch.

RECOMMENDATIONS

According to our records, the project site has not been subjected to any previous studies and the cultural resource sensitivity of the project site is unknown. However, there is the potential for the discovery of prehistoric and historic cultural resources within the project boundaries. Agricultural remains, foundations, trails, hearths, trash dumps, privies, changes in soil colorations, human or animal bone, pottery, chipped or shaped stone, etc. are all potential indications of an archaeological site. Therefore, customary caution and a halt-work condition should be in place for any ground-disturbing activities. In the event that any evidence of cultural resources is discovered, all work within the vicinity of the find should stop until a qualified archaeological consultant can assess the find and make recommendations. Additionally, the Native American Heritage Commission should be consulted to identify if any additional traditional cultural properties or other sacred sites are known to be in the area.

For your convenience, you may find a professional consultant* at www.chrisinfo.org. Any resulting reports by the qualified consultant should be submitted to the South Central Coastal Information Center as soon as possible.

*The SCCIC does not endorse any particular consultant and makes no claims about the qualifications of any person listed. Each consultant on this list self-reports that they meet current professional standards.

If you have any questions regarding the results presented herein, please contact the office at 657.278.5395 Monday through Thursday 9:00 am to 3:30 pm. Should you require any additional information for the above referenced project, reference the SCCIC number listed above when making inquiries. Requests made after initial invoicing will result in the preparation of a separate invoice.

Thank you for using the California Historical Resources Information System,

Stacy St. James

Lindsey Noyes
Lead Staff Researcher

Due to processing delays and other factors, not all of the historical resource reports and resource records that have been submitted to the Office of Historic Preservation are available via this records search. Additional information may be available through the federal, state, and local agencies that produced or paid for historical resource management work in the search area. Additionally, Native American tribes have historical resource information not in the California Historical Resources

Information System (CHRIS) Inventory, and you should contact the California Native American Heritage Commission for information on local/regional tribal contacts.

The California Office of Historic Preservation (OHP) contracts with the California Historical Resources Information System's (CHRIS) regional Information Centers (ICs) to maintain information in the CHRIS inventory and make it available to local, state, and federal agencies, cultural resource professionals, Native American tribes, researchers, and the public. Recommendations made by IC coordinators or their staff regarding the interpretation and application of this information are advisory only. Such recommendations do not necessarily represent the evaluation or opinion of the State Historic Preservation Officer in carrying out the OHP's regulatory authority under federal and state law.
