RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

The Office of Charismatic Renewal in the Diocese of San Bernardino is an established organization in San Bernardino County with 63 prayer groups, serving thousands of Catholics on a weekly basis. We reach our Spanish-speaking listeners through our weekly radio program and the advertising on KXRS Lazer radio. We wish to go on record in support of the permit for the proposed tower.

It is critical that Lazer provide the on-going and enhanced broadcast opportunity for this organization to reach our core customers. Alfredo Plascencia, the owner at Lazer, has gone out of his way to help our chain grow and prosper in the County.

As a local business serving the needs of local and regional businesses and individuals, we hope this letter demonstrates our unwavering support of the proposed tower, and the local and regional benefits that follow. Thank you for the opportunity to provide this letter of support.

Sincerely,

Marina Carrion  
Director  

cc  
Lazer Broadcasting

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

Famsa is an established furniture retailer in San Bernardino County that serves the families by selling furniture, electronics and appliances at affordable prices and also by offering in-house credit. We wish to go on record in support of the permit for the proposed tower.

Famsa benefits from Lazer's programming and community service efforts by entertaining and informing our customers.

It is critical that Lazer provide the on-going and enhanced broadcast opportunity for Famsa to reach our core customers. Lazer's service has helped our business grow and prosper in the County.

As a local business serving the needs of local and regional residents and businesses, we support the proposed project, and the local and regional benefits that follow.

Sincerely,

Mr. Alfredo Plascencia  
President and CEO  
Lazer Broadcasting Corporation  
200 South A Street, Suite 400  
Oxnard, CA 93030

Dear Alfredo,

I am honored and delighted to send thanks to you and everyone at Lazer Broadcasting for your generosity and commitment to Children’s Hospital Los Angeles, through Children’s Miracle Network. The 2009 Lazer Broadcasting Milagros Para Los Niños Radiotón was in immense success, raising more than $150,000 for Children’s Hospital Los Angeles alone, with other Children’s Miracle Network hospitals also benefitting from your kindness.

With the support of generous community partners like you, Children’s Miracle Network enables the fulfillment of Children’s Hospital Los Angeles’s mission to make a world of difference in the lives of children, adolescents, and their families by integrating medical care, education, and research. Your efforts help us provide the highest quality care and service to our community. In the complex world of pediatrics, in which the area of greatest need is constantly changing, these all-important gifts allow the doctors, nurses, researchers, and other caregivers to continue performing the miracles that occur here each and every day.

Lazer Broadcasting Corporation’s commitment to the Radiotón is a wonderful demonstration of your passion for the advancement of pediatric care here and beyond. Thank you for helping our patient and families. You are a shining example of a corporation that truly cares about the well-being of children in the communities you serve. We are very much looking forward to partnering with you again for the 2010 Milagros Para Los Niños Radiotón.

Warmest regards,

Joanne Reyes  
Director, Children’s Miracle Network

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of Yucaipa and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of Yucaipa and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Estoy escribiendo para apoyar el proyecto de expansión y la torre nueva de Lazer Broadcasting.

Yo creo que Lazer ha enseñado mucho apoyo hacia los miembros de comunidad regionales y locales. Como residente de Yucaipa y dueño de mi propio negocio, yo escucho la radio y considero su transmisión como la fuente principal de servicios públicos, noticias, y todo tipo de información útil para mí como radio escucha. Este plan de aumentar su área de servicio es necesitado.

Como radio escucha de la estación y por todos los servicios que ofrecen, favor de tomar esta carta como un símbolo de apoyo para el proyecto de expansión y la torre nueva de Radio Lazer.

Gracias,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

Richard Cuevas

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of Yucaipa and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

Michael González

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of Riverside County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

Adrian Ruiz

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a frequent listener and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,

RE: Lazer Radio Project # 2010-00215

Dear Planning Department and Supervisor,

I am writing in support of this expansion project and new tower for Lazer Broadcasting.

I believe that Lazer has shown a great deal of support to local and regional members of the community. I am a business owner, frequent listener, and resident of San Bernardino County and I consider their broadcast to be a primary source of public service announcements, News and generally all types of useful information for me as a listener. This plan to increase their service area is needed. In reaction of how we as patrons of their station and the many services they provide, please count me in total support.

Thank You,
