INDEPENDENT AUDITORS' REPORT

To the Board of Directors
of the California Statewide Automated Welfare System Consortium IV
Rancho Cordova, California

We have audited the accompanying financial statements of the governmental activities and the general fund of the California Statewide Automated Welfare System Consortium IV (the "Authority") as of and for the year ended June 30, 2011, which collectively comprises the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of the California Statewide Automated Welfare System Consortium IV as of June 30, 2011, and the respective changes in financial position, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 1 and 8 to the financial statements, the Authority adopted the provisions of GASB Statement No. 54, *Fund Balance and Governmental Fund Type Definitions*, as of July 1, 2010.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 20, 2012 on our consideration of the California Statewide Automated Welfare System Consortium IV's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The budgetary comparison information on page 20 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The Authority has not presented management's discussion and analysis that accounting principles generally accepted in the United States of America has determined is necessary to supplement, although is not required to be part of, the basic financial statements.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Reporting Entity

The California Statewide Automated Welfare System Consortium IV (Authority) was formed in 1998 under California Government Code Section 6500 et seq. The Authority originally included the counties of San Bernardino, Riverside, Merced and Stanislaus; however, on January 5, 2007, a new joint exercise of powers agreement was approved by the Authority adding thirty-five counties to the original four. The counties have been divided into seven regions and one representative from each region is selected to serve on the board establishing a seven member governing board. The governing board consists of a Chairperson, a Vice Chairperson, a 2nd Vice Chairperson and four members who are charged with the responsibility of governing and administering the Authority. The Authority was created for the purpose of the design, development, implementation, and on-going operation and maintenance of an automated welfare system to be used by each of the four original counties. The primary objective of the migration project is to provide the Interim Statewide Automated Welfare System (ISAWS) counties and the customers with a viable solution to meet their long term automation needs. The accounting policies of the Authority conform to accounting principles generally accepted in the United States of America as applicable to governments and to general practice within California Joint Powers Authorities.

The preparation of these financial statements requires management to make estimates and assumptions. Those estimates and assumptions affect the reported amounts of assets, liabilities, revenues, and expenditures, as well as the disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Management also determines the accounting principles to be used in the preparation of the financial statements. A description of the significant accounting policies employed in the preparation of these financial statements follows.

(b) Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the Authority. *Governmental activities*, which normally are supported by operating grants and member contribution revenues, are reported separately, compared to *business-type activities*, which rely to a significant extent on fees and charges for support. The Authority currently has no business-type activities.

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2011**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues include* grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Revenues that are not classified as program revenues are presented instead as general revenues. Net assets are comprised of capital assets net of related debt.

(c) Measurement Focus, Basis of Accounting, and Fund Financial Statement Descriptions

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures, and Changes in Fund Balances for all major governmental funds. An accompanying schedule is presented to reconcile and explain the differences in fund balances and changes in fund balances as presented in these statements to the net assets and changes in net assets presented on the government-wide financial statements. The Authority has only one major fund.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period. The Authority considers items available if received within 9 months of year end, for voluntary non-exchange transactions such as federal and state grants. All other revenues are accrued when their receipt occurs within sixty days after the end of the accounting period, and are recognized as revenue.

Expenditures are recorded when a liability is incurred, as under the accrual basis of accounting. However, expenditures related to long-term debt are recorded only when payment is due.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (CONTINUED)

The Authority reports the following major governmental fund:

The General Fund is the primary operating fund of the Authority. It is used to account for all financial resources of the Authority.

(d) Budgets and Budgetary Accounting

By state law, the Authority's Governing Board must approve a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The Authority's Governing Board satisfied these requirements. Amendments were made to the original budget adopted during the year due to changes in funding at the state level.

Formal budgetary integration was employed as a management control device during the year for the budgeted fund. The Authority employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object code.

Although there appears to be an excess of expenditures over appropriations, the variance was caused by expenditures and their related revenues outside State approved activities such as county only obligations and other items which are not budgeted. Therefore, in fiscal year 2010-11, there were no instances in which actual expenditures exceeded appropriations. Additional information on the Authority's budget and budgetary accounting can be found on page 20.

(e) Cash in County of San Bernardino's Treasurer Pool

Pursuant to the Joint Exercise of Powers Agreement, the Treasurer of the County of San Bernardino (County) has custody of all cash for the Authority. The Authority's share of the pooled cash account is separately accounted for, net of related expenses.

(f) Capital Assets

Capital assets, which include computers, software, and computer hardware, are reported in the government-wide financial statements. The Authority defines capital assets as assets with an initial, individual cost of more than \$5,000 for hardware and \$40,000 for software and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or developed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Capital assets are depreciated and amortized using the straight-line method over the following estimated useful lives:

(g) Prepaid Items

Certain payments to vendors reflecting costs applicable to future accounting periods are recorded as prepaid expenses in both the government-wide and the fund financial statements. \$15,272 of the prepaid expense balance is for insurance and the other \$18,356 is for a lease payment.

(h) Receivables

\$6,193,342 and \$2,698,254 of the accounts receivable balance on the fund financial statements are monies owed from the State of California and member counties, respectively, to settle the current liabilities of the Authority. The amount due from the State of California includes both Federal pass-through and State portions of grant revenue.

(i) Matured Leases and Interest Payable

The matured leases payable balance of \$198,938 and the matured interest payable balance of \$72,180 reflect the leases and corresponding interest due as of June 30, 2011. These accounts represent liabilities that have reached their maturity dates.

(j) Unearned Revenue

In the fund financial statements, the unearned revenue of \$33,628 reflects amounts received by the Authority from member counties to pay for expenditures of future periods. \$15,272 is for an insurance payment and \$18,356 is to prepay a lease obligation.

(k) Implemented Accounting Pronouncements

Governmental Accounting Standards Board Statement No. 54

During fiscal year 2011, the Authority adopted the provisions of Governmental Accounting Standards Board Statement No. 54, *Accounting and Financial Reporting for Fund Balance and Governmental Fund Type Definitions*. Refer to Note 8 for impact to the financial statements.

During fiscal year 2011, the Authority adopted the provisions of Governmental Accounting Standards Board Statement No. 59, *Accounting and Financial Reporting for Financial Instruments Omnibus*. This had no impact to the financial statements.

NOTE 2 – CASH AND INVESTMENTS

As discussed in Note 1 (e), the Authority's cash and investments are held in the San Bernardino County Treasurer's pool. At June 30, 2011, the Authority's cash and investments held in the County Treasurer's pool totaled \$1,473,600.

Additional information regarding the Pool, including the investment portfolio and related interest rate, custodial credit, investment credit and concentration of credit risks, is presented in Note 6 of the San Bernardino County's Comprehensive Annual Financial Statements (CAFR). Amortization expense included with depreciation expense on the statement of activities amounted to \$2,888,774 for the year ended June 30, 2011.

Due to State of California

The consortium migration counties collectively are required to contribute 5% of the application development costs of the Statewide Automated Welfare System. The State of California has been fully funding these application development costs and upon implementation of the system, each migration county will be required to repay the State for their 5% share. The determination of each migration county's share is proportionate to the county's individual caseload compared to total consortium caseload upon execution of the original contract for application development. The 5% share is due to the State June 30, 2014.

NOTE 6 - RELATED PARTIES AND RELATED PARTY TRANSACTIONS

There are twelve San Bernardino County employees (Contractors) working on behalf of the Authority. These contractors are under the administrative supervision of the San Bernardino County Assistant County Administrator (ACA) for Human Services System. However, for daily operational purposes, these contractors report to and receive their annual performance reviews by the Authority's Chairman. As of June 30, 2011, the positions of San Bernardino County ACA and Authority Chairman were held by two individuals.

The County of San Bernardino (a member agency) provides controllership services to the Authority which includes accounting services on a cost reimbursement basis. Total amounts paid and due the County for these services amount to \$163,153 and \$9,494 respectively as of June 30, 2011.

NOTE 7 – COMMITMENTS AND CONTINGENCIES

Commitments

The Authority recognizes as revenue grant monies received as reimbursement for costs incurred. Although the Authority's grant programs are being audited through June 30, 2011 in accordance with the provisions of the Single Audit Act of 1996, these programs are still subject to financial and compliance audits and resolution of previously identified questioned costs. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the Authority expects no such amounts.

The Authority contracts with a prime development contractor, a prime implementation contractor and a quality assurance contractor for the majority of its expenditures related to maintenance and operations and the development and implementation of the C-IV welfare automated integrated system for the 4 original counties and the 35 Migration counties. The Authority disburses funds to the contractors based upon fixed price deliverables, monthly expenditures, performance reports, equipment, software, facilities and network charges received from the contractors. Payments for services and retentions under the contracts are contingent upon approval and acceptance by the Authority and appropriate state and federal agencies.

In addition, payments under the contracts are contingent upon the availability of county, state, and federal funding. If funding to make payments under the terms of the contract is not forthcoming from the state legislature or the federal government for the project, or is not allocated to the Authority by the State Department of Finance for payment in the current or any future fiscal period, then the obligations of the Authority to make payments after the effective date of such non-allocation or non-funding will cease and terminate in accordance with contract termination terms and conditions.

The total future commitment under existing contracts is approximately \$249,000,000.

NOTE 8 – FUND BALANCE CLASSIFICATION

Beginning with the current fiscal year, the Authority implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

1. Nonspendable – amounts that are not in a spendable form (such as inventory) or are required to be maintained intact.
2. Restricted – amounts constrained to specific purposes by their providers (such as grantors, bondholders and higher levels of government), through constitutional provisions or by enabling legislation.
3. Committed – amounts constrained to specific purposes by a government itself, using the highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint.
4. Assigned – amounts a government intends to use for a specific purpose; intent can be expressed by the governing body, or by an official or body to which the governing body delegates the authority.
5. Unassigned – amounts that are for any purpose; positive amounts are reported only in a general fund.

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, and then unrestricted resources; committed, assigned and unassigned, as they are needed. In the absence of resolutions or ordinances, the Authority designates committed fund balance through board action, which is the highest form of decision-making authority.

The Authority currently has no fund balance so there is no impact to the financial statements.

NOTE 9 – SUBSEQUENT EVENT

State Legislature enacted Chapter 13, Statutes of 2011 (ABX1 16, Blumenfield), which will decrease the number of SAWS systems to two. Additionally, this legislation specifies that the reduction will occur by migrating, or moving, 39 counties from the existing C-IV system to Los Angeles County's new replacement system. On July 29, 2011, the State of California ("State") issued a letter to federal agencies which outlines and requests approval for its strategy to consolidate the State's eligibility systems. Upon Federal approval, this migration will result in a new consortium to replace the LEADER and C-IV Consortia.

NOTE 10 – NEW ACCOUNTING PRONOUNCEMENTS

GASB 60 - Accounting and Financial Reporting for Service Concession Arrangements

The GASB issued Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements*. This Statement addresses how to account for and report service concession arrangements (SCAs), a type of public-private or public-public partnership that state and local governments are increasingly entering into. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011.

GASB 61 - The Financial Reporting Entity: Omnibus

The GASB issued Statement No. 61, *The Financial Reporting Entity: Omnibus*. This Statement is designed to improve financial reporting for governmental entities by amending the requirements of Statements No. 14, *The Financial Reporting Entity*, and No. 34, *Basic Financial Statements— and Management’s Discussion and Analysis— for State and Local Governments*, to better meet user needs and address reporting entity issues that have come to light since those Statements were issued in 1991 and 1999, respectively. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2012.

GASB 62 - Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements.

The GASB issued Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. This Statement is intended to enhance the usefulness of its Codification by incorporating guidance that previously could only be found in certain Financial Accounting Standards Board (FASB) and American Institute of Certified Public Accountants (AICPA) pronouncements. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011.

GASB 63 - Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position

The GASB issued Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which establish guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011.

Cash Basis/GAAP Reconciliation

The budget as reported in the Statement of Revenues, Expenditures, and Changes in Fund Balance-Budget and Actual is reported using the budgetary basis method of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles (GAAP). This method does not recognize receivables, payables, capital lease payments as a reduction of debt service and interest expense, or the capitalization of certain cost related to software development. The budget includes only State approved activities for SAWS. The budget variance of \$22,697,508 reflects expenditures and their related revenues outside state approved activities such as County only obligations and other items. A reconciliation of Actual on a budgetary basis to the Statement of Revenues, Expenditures and Changes in Fund Balance is shown as follows:

	<u>Actual</u> <u>(Budgetary Basis)</u>	<u>Actual</u> <u>(GAAP Basis)</u>	<u>Change</u>
<u>Intergovernmental revenues</u>
