Crest Forest Drive Rehab Project Approved

SAN BERNARDINO – A section of Crest Forest Drive in Crestline will be completely rehabilitated under a contract approved by the Board of Supervisors on Tuesday.

The \$332,440 contract calls for crews to pulverize existing asphalt between Mozumdar and Waters Drive, repair potholes and cracks, and overlay the road with asphalt. The work does not require additional right of way.

“This rehab project will help extend the life of this section of Crest Forest Drive while also providing residents with a much smoother driving surface,” said Supervisor Paul Biane, who represents Crestline as the County’s Second District Supervisor.

The road work is scheduled to begin in late August and should be completed by early October. Drivers are urged to use caution in the construction area. Some lane closures and other traffic control measures will be required during the project.
