Objectives:

- Identify 2 or more current trends in brain science research and how it relates to active duty military and veterans
- Identify the predator-prey-witness triangle and how it relates to the intensity of war zone trauma.
- Identify 3 skills of TRM that can be incorporated into clinical practice with Veterans and Warriors.
- Identify 2 or more salient issues facing active duty service members and veterans as they reintegrate into civilian life.

Professional office attire is expected from attendees. No jeans are allowed.
