Trauma Resiliency Model (TRM)

Basic TRM Training

About This Course:

The Trauma Resiliency Model (TRM) training is a **3-day course** designed to teach skills to stabilize ones nervous system to reduce and/or prevent the symptoms of traumatic stress. This model has been used successfully with adults and children and is being utilized at Juvenile Hall, triage, CCRT, disaster response, FSP, outpatient therapy, and CWIC. TRM is an integrative (mind-body approach), which focuses on the biological foundation of trauma and the reflexive, defensive ways the body responds to threat and fear. Although this training does not directly address alcohol and drug treatment, trauma often results in substance use/abuse.

Learning Objectives

1. Identify the way shock, trauma, developmental trauma, and cumulative trauma affect the nervous system.
2. Utilize the 6 basic skills of the TRM to stabilize the nervous system.
3. Understand how to integrate the skills of TRM into their current work setting and therapeutic approached.
4. Identify 3 ways to use TRM for self-care.
5. Demonstrate effective practice skills using the TRM Method

Additional learning objectives may be obtained by phone or email at: 800-722-9866 or training@dbh.sbcounty.gov

Presented by: DBH & contract staff, TRI co-founder Elaine Miller-Karas, LCSW, and DBH master trainer Carol Michelson
