

# Mental Health Services Act Prevention & Early Intervention Plan

You are invited by the San Bernardino County Department of Behavioral Health to attend...

## Community Public Hearings

June 18th - June 26th

These public hearings are being held to gather feedback on the proposed plan for the Prevention and Early Intervention (PEI) component of the Mental Health Services Act.

The Mental Health Services Act (MHSA), Proposition 63, was passed by California voters in November 2004. The Prevention and Early Intervention programs are transformational in the way they restructure the mental health system to a "help-first" approach.

### Prevention programs:

- Bring awareness into communities
- Facilitate accessing supports at the earliest signs of mental health problems
- Builds capacity for providing mental health early intervention services in natural settings
- Reduce the potential for stigma and discrimination against individuals with mental illness.

Please join us at one of the listed Public Hearings to learn more about the draft plan and to voice your opinion.

Interpretation services in the following languages will be provided: Vietnamese (West Valley Only), Spanish, and American Sign Language
