(1141272) Open-air barbecues or wood-burning ovens floor surfaces must extend a minimum of five feet and be impervious or easily cleanable. (114143(d))

IMPORTANT: Risk Based Inspection Frequency

Food facilities that pose a higher risk level for causing foodborne illness will be subject to an additional inspection, to be billed at the hourly rate as provided in the San Bernardino County Code Schedule of Fees. Facilities that received one or more of the following will be elevated to a high risk tier:

- · A score letter of "C" or lower on one of the last two graded inspections,
- A score letter of "B" on two of the last three graded inspections,
- Repeated "four (4) point violation Risk Factor" (critical violation codes 1-23) on the last two inspections, or
- · Four (4) or more critical violations (codes 1-23) noted during an inspection, or
- · A permit suspension (closure) on your last graded inspection.

Overall Inspection Comments

On this date a "B" grade card was posted.

For a B grade (score of 80 to 89) A re-score inspection may be requested by a food facility who receives a "B" grade after the completion of an official routine inspection. This request is optional on the part of the facility which may wish to try to improve their score or letter grade. The Health Official will complete the re-score inspection within ten (10) County business days of the food facility submitting a request for a re-score inspection. The inspection rate is \$245.00 per hour. A minimum of \$122.50 will be charged for the first 30 minutes of inspection time. A Letter Grade Card shall remain valid until the Health Official completes the next routine inspection or re-score inspection of the food facility. A re-score inspection is a new, unscheduled, complete routine inspection that a) may be required by County Ordinance; or b) may be requested by the food facility.

This facility has received two 'B's during the last three health inspections. Due to this, the facility has been placed into the Elevated Risk category and is subject to additional billable health inspections at an hourly rate of 245 dollars. The facility is subject to stay in the Elevated risk status until proven that it can operate safely.
