Compliance Date not Specified

Not In Compliance
 Violation Reference: HSC

Violation Description: Reinspection conducted at this time to determine compliance from prior inspection.

Inspector Comments: A re-inspection was conducted today to verify that compliance has been met on roach exclusion and elimination. During the inspection, did observe much improvement in the facility's cleanliness and no more dead insects. However, did observe a live roach crawling on the counter located across from the bar. Also observed gaps in between the coping located across from the walk-in refrigerator.

Operator provided a service ticket from a professional pest control company dated for 1/12/13. Per operator, the pest control operator visited the facility this morning and will return in 21 days to follow-up.

Seal gaps in between the tile and maintain. Continue working with the professional pest control operator to exclude and eliminate pests, and fax/e-mail service tickets to Environmental Health. Failure to comply will result in additional charged inspections and/or other legal action.

Overall Inspection Comments

A business card was given to the operator.
