Inspection Violations

An inspection has been conducted on this date in response to a Complaint

1. Complaint Inspection

Compliance Date not Specified
Not In Compliance
Violation Reference: HSC

Violation Description: A complaint report has been received by Environmental Health.

Inspector Comments: Responded to the complaint about sludge in spa/pool. The complainant was present to show the sludge in the pool or spa. The complainant did not show any sludge in pool or spa. Instead he showed what appeared to be dirt buildup on the spa shell about 1 inch above the water level. The management representative on site was then advised that weekly pool and spa cleaning must include shell sides above water level.

Complaint is closed.
