					ACTION: 01 - No Further Action Required

RETAIL FOOD PROTECTION - PUBLIC EATING PL (100-UP SEATS)

16K999 Complaint Inspection

Compliance Date: Not Specified
Not In Compliance
Violation Reference - HSC

Inspector Comments: This department received a complaint of complainant stated drains are backed up in the kitchen and the bar area. In addition, there is no available hot water to wash glasses.

Findings:
 Operator stated there was a recent sewage problem at this facility. On Sunday (5/20/13), the entire sewage lines to the shopping plaza were in disrepair until fully repaired on Tuesday (5/22/13).

 Operator stated the facility was opened for business until realized that it would take longer than anticipated to repair the problem; which as a result the facility was closed to serve the public.

 Operator stated all the floors had been cleaned before the facility was opened to serve the public on Tuesday (5/22/13).

 Observed all drains are currently working properly at the facility.

 Measured the highest hot water temperatures at the facility (at the 3-compartment sink) ranging from 136F – 140F.

 Observed soiled, old standing water in between grouts on the floor under the bar sink. Clean and maintain floor free of all debris at all times.

 No future action revealed at this time.

Violation Description: A complaint report has been received by Environmental Health.

Overall Inspection Comments

Complaint has been addressed and is now closed.

 An operator signature to this complaint report can be found on the facility's routine inspection report conducted during the same visit.
