Violation Reference - HSC

**Inspector Comments:** On 6/20/13, a complaint report was received regarding an alleged sickness from swimming at Rancho High school pool as part of a summer school swimming class. The symptoms included headache and earache, among other things. On investigating the condition of the pool on the same day the report was received, i.e. 6/20/13, observed that the free chlorine, and pH levels of pool water were at 5 ppm, and 7.2, respectively. The school records regarding pool chemistry and maintenance show that there was nothing out of the legal limits. The records are available for review. Also asked Assistant Principal, Richard Gundrum, if there were similar complaints received by the school, and said, "No". Case closed.

**Violation Description:** A complaint report has been received by Environmental Health.

**Overall Inspection Comments**

No summary comments have been made for this inspection.
