16K999 Complaint Inspection

Compliance Date: Not Specified
Not In Compliance
Violation Reference - HSC

Inspector Comments: On investigation, inspected for signs of roach infestation, and records of pest control services. Also asked manager on site of the complaint that said, an employee was told of a roach on the floor and refused to act.
* found out that there are several cracks and crevices on wall at the small storage room at entrance to the kitchen, and the water heater area. Also observed a few coving tiles detached from wall. With respect to pest control service, the last one was five months ago according to manager on site, but no evidence to that effect. Regarding employee not doing anything, manager on site says doesn't know anything.
* Ensure all potential harborage sites including cracks and crevices are sealed off, and pest control service provided as needed. Case closed.

Violation Description: A complaint report has been received by Environmental Health.
