16K999 Complaint Inspection

Compliance Date: Not Specified

Not In Compliance

Violation Reference - HSC

Inspector Comments: Received complaint; complainant stated that they had to walk across the street to use bathroom. Complainant stated that there was no water in the facility, and that there were dirty dishes.

During complaint investigation on 3-31-14:

- 1) Observed that there was hot and cold water at the handwashing sinks in both the men's and women's restrooms.
- 2) Observed that there was hot and cold water at the handwashing sinks in the kitchen area.
- 3) Observed that there was hot and cold water at the 3-compartment warewashing sink.
- 4) Observed that there was hot water at the automatic (mechanical) dishwasher. Dishwasher is a heat-sanitizing dishwasher; observed temperature gauge at 178F. Observed that dishes were being cleaned using the automatic (mechanical) dishwasher.
- 5) Operator stated that the water pressure had dropped significantly this morning, and so they called their corporate office, who told them to keep the restaurant closed and to have a plumber provide necessary repairs. The operator stated that they usually open at 10 AM but did not open today until 1 PM. (Plumber was onsite during complaint investigation.) Operator stated that they used the 3-compartment sink for manual warewashing until the pressure was high enough to utilize the automatic (mechanical) dishwasher.

Ensure that hot and cold water is available at normal pressure at all times, including when facility is open to customers, as well as when facility is closed but food preparation is taking place, etc.

Complaint is now closed.

Violation Description: A complaint report has been received by Environmental Health.

Overall Inspection Comments

Complaint is now closed.
