16K999 Complaint Inspection

Compliance Date: Not Specified

Inspector Comments:

Not In Compliance

Violation Reference - HSC

Violation Description: A complaint report has been received by Environmental Health.

Overall Inspection Comments

A complaint alleged that dumpster at this facility smelled really bad and always overflowing.

Findings:

- Owner of the facility acknowledged that the facility has been having problem with the trash. The trash pick-up truck comes six times a week from Monday to Saturday. The owner stated that she has requested waste management company to add additional pick-up day on Sunday but the request was declined. She stated that overflowing trash usually happens on Monday since Saturday and Sunday are the facility's busiest days and no trash is picked up on Sunday.
- The facility has two dumpster. At this time of inspection one dumpster was observed empty. Observed garbage bags in the other dumpster properly tied.
- Observed lid of one dumpster (the one with garbage in it) left open. Ensure to maintain the lid closed at all times.
- The owner has contacted waste management company to request a trash compactor but has not gotten an answer yet.
- At this time, foul odor was smelt around dumpster area.
- Observed empty card board boxes scattered around back doors near dumpster.
- Observed some flies around card board boxes.
- Owner stated that the boxes are picked up daily.

Corrective action:

- Continue effort to obtain a compactor.
- Flatten card board boxes before they are placed outside and stack them neatly in dumpster enclosure.
- Maintain lids of dumpsters closed at all time.
