RETAIL FOOD PROTECTION - PUBLIC EATING PL (25-99 SEATS)

16K994 Reinspection

Compliance Date: Not Specified
Not In Compliance
Violation Reference - HSC

Inspector Comments: During the previous routine inspection, the facility had a prep fridge that was in disrepair and was not holding food at proper temperatures.

During the follow-up inspection observed that the unit had not been fixed. Per manager on site, the unit was not able to be repaired so a new one was purchased. Operator provided a invoice for purchase of the unit, which showed a delivery date of 5/28/14 or sooner.

Continue to place potentially hazardous food items on ice until the new unit is installed and running. Maintain all potentially hazardous foods at 41F and below.

Operator also provided a copy of registration for certified food manager's course during time of inspection.

No further action is needed at this time.

Violation Description: Reinspection conducted at this time to determine compliance from prior inspection.
