TIME IN 2:50 PM	TIME OUT 3:16 PM	CONTACT Not Captured			SERVICE: 001 - INSPECTION - ROUTINE		
					RESULT: 03 - CORRECTIVE ACTION / NO FOLLOW UP REQ		
					ACTION: 01 - NO FURTHER ACTION REQUIRED		

RECREATIONAL HEALTH - Public Pool - Initial Pool at Facility

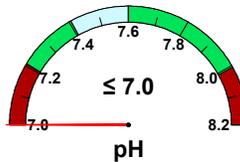

Based on an inspection this day, the items marked below identify the violation(s) in operation or facilities which must be corrected. The Permittee has the right to a hearing if requested in writing within 15 calendar days of receipt of this notice, to show cause why the permit to operate should not be suspended or revoked.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge of \$61.25 per 15 minutes with a minimum time of 30 minutes, and a minimum charge of \$122.50.

36K418 Water Quality - Cyanurates

POINTS 2	Compliance Date: Not Specified	Inspector Comments: Observed cyanuric acid level above 100 ppm. Cyanuric acid shall not exceed 100 ppm. Cyanuric acid can be lowered by slightly draining the pool/spa and adding fresh water.
	Not In Compliance	
	Violation Reference - CCR - 65529	

Violation Description: The cyanuric acid concentration in any pool shall not exceeded 100 ppm.

36K430 Safety - Equipment/First Aid Kit

POINTS 2	Compliance Date: Not Specified	Inspector Comments: Observed no life ring at time of inspection. Ensure a life ring is located near pool at all times. All swimming pools are required to provide a life ring with an outside diameter of 17 inches and a rope (at least 3/16 inches in diameter) attached that is long enough to span the widest part of the pool.
	Not In Compliance	
	Violation Reference - CCR - 65539	

Violation Description: Every swimming pool shall be equipped for safety and rescue purposes with one or more rescue poles not less than 12 feet in length with body hooks, and one or more life rings having a minimum exterior diameter of 17 inches readily accessible for use. Such life rings shall have attached to them an 3/16 inch line long enough to span the maximum width of the pool. A first aid kit shall be provided at all swimming pools when required by DEHS.

36K444 Equipment - Recirculation Pump/Filter/Separation Tank

POINTS 2	Compliance Date: Not Specified	Inspector Comments: Observed recirculation system not in operation. Ensure recirculation system is always in operation when in use.
	Not In Compliance	
	Violation Reference - HSC - 3120B, 3132B, 3141B	

Violation Description: Each pool shall be provided with a separate recirculation system designed for the continuous recirculation, filtration and disinfection of the pool water. The pumps, filters and all related parts of the pool water purification system shall be kept in operation whenever the pool is available for use. All parts of the pool and related pool facilities and equipment shall be maintained in good repair.

The backwash from a diatomaceous earth filter shall discharge into a separation tank. The wastewater from the separation tank shall discharge into a sanitary sewer or other disposal system acceptable to the local wastewater agency.

The direction of flow for the recirculation equipment shall be labeled clearly with directional symbols such as arrows on all piping in the equipment area.

36K458 Maintenance - Test Kit/Daily Records

POINTS 2	Compliance Date: Not Specified	Inspector Comments: Observed no test kit. Ensure to obtain a DPD test kit. Observed no daily pool records on site. Ensure to maintain daily records for pool. Pool Code sec. 65523 states: "The operator of each pool open for use shall keep a daily record of information regarding operation, including readings of disinfectant residual, pH and maintenance procedures such as cleaning of filters and quantity of chemicals used." Also it states: "If cyanuric acid is used..., the cyanuric acid concentration shall be measured a minimum of once per month and records shall be kept of the results of such testing." If the pool service person is only at the site 3 days a week, there needs to be someone else to record the chlorine and pH on the other 4 days. The only way poor chemistry can be corrected is if someone knows that it is "poor."
	Not In Compliance Violation Reference - CCR - 65523, 65529	

Violation Description: Appropriate test kits for measuring the pH, concentration of the disinfectant, and, when used, concentration of cyanuric acid shall be provided at each pool. The test kit shall be capable of testing for free chlorine residual.

The operator of each pool open for use shall keep a daily record of information regarding operation, including readings of disinfectant residual, pH and maintenance procedures such as cleaning of filters and quantity of chemicals used.

Overall Inspection Comments

No summary comments have been made for this inspection.
