**RECREATIONAL HEALTH - Public Pool - Initial Pool at Facility**

Based on an inspection this day, the items marked below identify the violation(s) in operation or facilities which must be corrected. The Permittee has the right to a hearing if requested in writing within 15 calendar days of receipt of this notice, to show cause why the permit to operate should not be suspended or revoked.

Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge of \$61.25 per 15 minutes with a minimum time of 30 minutes, and a minimum charge of \$122.50.

**36K458 Maintenance - Test Kit/Daily Records**

<b>POINTS</b> <b>2</b>	Compliance Date: <b>Not Specified</b>	<b>Inspector Comments:</b> Observed no test kit. Ensure to obtain a DPD test kit. Observed no daily pool records on site. Ensure to maintain daily records for pool. Pool Code sec. 65523 states: "The operator of each pool open for use shall keep a daily record of information regarding operation, including readings of disinfectant residual, pH and maintenance procedures such as cleaning of filters and quantity of chemicals used." Also it states: "If cyanuric acid is used..., the cyanuric acid concentration shall be measured a minimum of once per month and records shall be kept of the results of such testing." If the pool service person is only at the site 3 days a week, there needs to be someone else to record the chlorine and pH on the other 4 days. The only way poor chemistry can be corrected is if someone knows that it is "poor."
	Violation Reference - CCR - 65523, 65529	

**Violation Description:** Appropriate test kits for measuring the pH, concentration of the disinfectant, and, when used, concentration of cyanuric acid shall be provided at each pool. The test kit shall be capable of testing for free chlorine residual.

The operator of each pool open for use shall keep a daily record of information regarding operation, including readings of disinfectant residual, pH and maintenance procedures such as cleaning of filters and quantity of chemicals used.

**Overall Inspection Comments**

No summary comments have been made for this inspection.
