16K999 Complaint Inspection

Compliance Date: Not Specified
Not In Compliance
Violation Reference - HSC

Inspector Comments: Our department received a complaint of sales clerks handling raw chicken, fried chicken, and money without washing of hands or wearing of gloves between the activities. The complainant added that when the off-duty OSHA inspector informed the clerks about the requirements of washing hands and wearing of gloves when handling open food, one of the clerks told the off-duty OSHA inspector that they are not required to wear gloves. The management is already aware of the complaint.

Water at the employee hand washing sink in the chicken prep area is turned off for leak repairs at the time of investigation. Immediately repair this hand washing sink. The manager on duty, Stephaine, stated that the employees are using the hand washing sink in the back area to wash their hands temporarily.

As a reminder, hand washing is required between different activities when handling open food. Also, food shall be prepared, stored, and served in a safe and sanitary manner at all times.

Violation Description: A complaint report has been received by Environmental Health.
