Inspector Comments: This re-inspection was conducted due to the closure of the facility on 4/27/16. At this time, observed no live cockroach activity. Operator provided Terminix commercial pest control invoice/inspection summary. Continue with recommended corrections listed on the report. Also, replace domestic wall shelving with approved ANSI certified shelving. The current wall shelving brackets provide crevices for cockroaches. The facility is approved to re-open at this time. Operator stated all food contact surfaces have been properly washed and sanitized. Take all necessary action to eliminate cockroaches from facility. Notice of closure sign removed and B card posted. Contact this department (800)442-2283 with questions/concerns or to request a re-inspection. Health permit has been reinstated at this time.

Description: Reinspection conducted at this time to determine compliance from prior inspection.
