BODY ART - Body Art Facility

Based on an inspection this day, the items marked below identify the violation(s) in operation or facilities which must be corrected. Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional reinspection at a charge of \$4.08 per 1 minute with a minimum time of 30 minutes, and a minimum charge of \$122.50.

SCORE
85

Administrative Order to Show Cause (OSC): The Permittee has the right to a hearing if requested in writing within 15 calendar days of receipt of this notice, to show cause why the permit to operate should not be suspended or revoked; otherwise the right to a hearing shall be deemed waived.

See the following pages for the code sections and general requirements that correspond to each violation listed below.

BODY ART INSPECTION

1	119315(b)(1)(2)(3) - Autoclave effective - passed integrator test
2	119309(e-g),315(a)(c-d) - Process of cleaning, labeling, packaging and sterliziing items appropriate
3	119315(b)(e) - Autoclave loaded correctly/packages allowed to dry
4	119315(b)(2-5) - Integrators used/monthly spore test/log maintained

POINTS NA	Inspector Comments: Facility was closed between 10/15-1/16 so no biological monitoring logs available for those months. Sterilization log was available.
----------------------------	--

Violation Description:

- 119315 (b) (2) Sterilization equipment shall be tested using a commercial biological indicator monitoring system after the initial installation, after any major repair, and at least once per month. The expiration date of the monitor shall be checked prior to each use.
- 119315 (b) (3) Each sterilization load shall include, at a minimum, a Class V integrator.
- 119315 (b) (4) Biological indicator monitoring test results shall be recorded in a log that shall be kept on site for three years after the date of the results.
- 119315 (b) (5)A written log of each sterilization cycle shall be maintained for three years, shall be available for inspection by the enforcement officer, and shall include all of the following information:
 - (A) The date of the load.
 - (B) A list of the contents of the load.
 - (C) The exposure time and temperature.
 - (D) The results of the Class V integrator.
 - (E) For cycles where the results of the biological indicator monitoring test are positive, how the items were cleaned, and proof of a negative test before reuse.

5	119314(c)(1)(2) - Decontamination/sanitation area separate and supplied appropriately *
POINTS 3	Inspector Comments: Clean and sanitize decontamination area.

Violation Description:

- 119314 (c) (1) Decontamination and sterilization areas within a body art facility shall meet all of the following requirements: Be separated from procedure areas by a space of at least five feet or by a cleanable barrier.
- 119314 (c) (2) Be equipped with a sink, hot and cold running water, containerized liquid soap, and single-use paper towels dispensed from a wall-mounted, touchless dispenser that is readily accessible to the practitioner.

BODY ART - OFFICIAL INSPECTION REPORT

FACILITY NAME REDRUM TATTOO	DATE 5/18/2016	INSPECTOR Scott Maass
LOCATION 16138 MAIN ST., HESPERIA, CA 92345		

BODY ART INSPECTION

6 119315(f)(1-3), 119318(c) - Invoices and log kept for disposable, pre-sterilized equipment, backup supplies adequate *

POINTS
3

Inspector Comments:

Provide written proof of sterilization on company letterhead for pre-sterilized instruments.

Violation Description:

119315 (f) A body art facility that does not afford access to a decontamination and sterilization area that meets the standards of subdivision (c) of Section 119314 or that does not have sterilization equipment shall use only purchased disposable, single-use, presterilized instruments. In place of the requirements for maintaining sterilization records, the following records shall be kept and maintained for a minimum of 90 days following the use of the instruments at the site of practice for the purpose of verifying the use of disposable, single-use, presterilized instruments:

(1) A record of purchase and use of all single-use instruments.

(2) A log of all procedures, including the names of the practitioner and client and the date of the procedure. A record of purchase and use of all single-use instruments. A log of all procedures, including the names of the practitioner and client and the date of the procedure.

(3) Written proof on company or laboratory letterhead showing that the presterilized instruments have undergone a sterilization process. Written proof shall clearly identify the instruments sterilized by name or item number and shall identify the lot or batch number of the sterilizer run.

119318 (c) The sponsor of a temporary body art event shall be responsible for ensuring the availability of support facilities and supplies for practitioners and vendors.

7 119311 (g), 119314 (e) - Sharps containers supplied, labeled, used and disposed of appropriately *

POINTS
NA

Inspector Comments:

Mailyoursharps.com is medical waste hauler.

Violation Description:

119311 (g) Needles, needle bars, grommets, and razors shall be discarded into a sharps waste container immediately upon completion of the procedure.

119314 (e) Each procedure area shall have a sharps waste container that meets the following requirements:

(1) The sharps waste container shall be portable, if portability is necessary to ensure that the sharps waste container is within arm's reach of the practitioner.

(2) The sharps waste container shall be labeled with the words "sharps waste" or with the international biohazard symbol and the word "BIOHAZARD."

(3) All sharps waste produced during the process of tattooing, body piercing, or the application of permanent cosmetics shall be disposed of either of the following methods: (A) Removal and disposal by a licensed waste hauler. Materials shall be disposed of at a licensed treatment facility or removed and transported through a mail-back system authorized by the State Department of Public Health. (B) As solid waste, after being disinfected by a method approved by the department pursuant to paragraph (3) of subdivision (a) of Section 118215.

(4) Documentation of proper disposal of sharps waste shall be maintained for three years and shall be available for inspection at the request of the enforcement officer.

8 119310(a-c);311(f);315d,e - Jewelry, tattoo and piercing equipment - clean and sterilized

POINTS
3

Inspector Comments:

Observed tube protruding through sterilized package. Inspect sterilized instruments at time of storage and prior to use.

Violation Description:

119310 (a) Jewelry placed in newly pierced skin shall be sterilized prior to piercing as specified in Section 119315 or shall be purchased presterilized. Sterile jewelry packs shall be evaluated before use and, if the integrity of a pack is compromised, including, but not limited to, being torn, wet, or punctured, the pack shall be discarded or reprocessed before use.

119310 (b) Only jewelry made of ASTM F138, ISO 5832-1, and AISI 316L or AISI 316LVM implant grade stainless steel, solid 14-karat through 18-karat yellow or white gold, niobium, ASTM F 136 6A4V titanium, platinum, or other materials found to be equally biocompatible shall be placed in newly pierced skin.

119310 (c) Ear piercing equipment with a disposable, single-use, presterilized stud and clasp may be used only for piercing the ear pursuant to Article 7 (commencing with Section 119325).

119310 (d) If measuring the body piercing site is necessary, clean calipers shall be used and the skin marked using clean toothpicks and ink or a single-use marking pen.

119311 (f) Only single-use needles and needle bars shall be used in tattooing and the application of permanent cosmetics. Needles and needle bars that are purchased in a nonsterilized state, shall be sterilized, pursuant to the process required by Section 119315.

119315 (d) Sterilized instruments shall be stored in the intact sterilization packaging or in the sterilization equipment cartridge until time of use.

119315 (e) Sterile instrument packs shall be evaluated at the time of storage and before use. If the integrity of a pack is compromised, including, but not limited to, cases where the pack is torn, punctured, wet, or displaying any evidence of moisture contamination, the pack shall be discarded or reprocessed before use.

9 119309(i);119308 (a)(2) - No eating, drinking or smoking - clean clothes

BODY ART - OFFICIAL INSPECTION REPORT

FACILITY NAME REDRUM TATTOO	DATE 5/18/2016	INSPECTOR Scott Maass
LOCATION 16138 MAIN ST., HESPERIA, CA 92345		

BODY ART INSPECTION

- 10 119301(m)(1-2);308(a)1,4 - Hands washed effectively and timely
- 11 119314(b-c);317(g);318(b) - Handwashing facilities properly supplied and accessible, warm potable water *

POINTS
3

Inspector Comments:

Observed hand soap missing at multiple hand sinks and no wall-mounted touchless paper towels in decontamination area. Provide soap in dispensers at all hand wash sinks and a wall-mounted touchless paper towel dispenser in decontamination area.

Violation Description:

119314 (b) (4) Procedure area shall be equipped with a sink, hot and cold running water, containerized liquid soap, and single-use paper towels dispensed from a wall-mounted, touchless dispenser that is readily accessible to the practitioner.

119314 (b) (5) All sinks shall be permanently plumbed and meet local building and plumbing codes. Facilities that were issued a permit prior to January 1, 2014, shall have until July 1, 2014, to comply with this section

119314 (c) (2) Decontamination and sterilization areas shall be equipped with a sink, hot and cold running water, containerized liquid soap, and single-use paper towels dispensed from a wall-mounted, touchless dispenser that is readily accessible to the practitioner.

119317 (g) (1) For temporary body art events consisting of one demonstration booth, the booth shall be equipped with hand washing equipment that, at a minimum, consists of containerized liquid soap, single-use paper towels, a five-gallon or larger container of potable water accessible via spigot, and a wastewater collection and holding tank of corresponding size. Potable water shall be refilled and the holding tank evacuated frequently to provide uninterrupted use, or as determined by the local enforcement agency.

119318 (b) (2) Restrooms that have flush toilets supplied with toilet paper, and hand wash sinks supplied with hot and cold potable running water, soap, and single-use paper towels to which practitioners have direct access.

- 12 119308(a)(2-4);119309(d) - Appropriate personal protective equipment available and used, eyewash station available *

- 13 119309(j) - Branding is completed with no other customers in procedure area

- 14 119302(a-d) - Customers eighteen (18) years of age or older

- 15 119308(a)(5)(6) - Skin adequately prepared for procedure.

- 16 119303(a)(1-5),(b)(1-4) - Client records approved and available - Consent form & questionnaire

POINTS
3

Inspector Comments:

Client consent form missing information regarding herpes, allergic reactions to latex or antibiotics, cardiac valve disease, history of medication use, other risk factors for bloodborne pathogens, and notice that inks, dyes and pigments have not been approved by the FDA.

Violation Description:

119303 (a) Prior to the performance of body art, the client shall read, complete, and sign an informed consent form that shall include, but not be limited to, all of the following information:

- (1) A description of the procedure.
- (2) A description of what the client should expect following the procedure, including suggested care and any medical complications that may occur as a result of the procedure.
- (3) A statement regarding the permanent nature of body art.
- (4) Notice that tattoo inks, dyes, and pigments have not been approved by the federal Food and Drug Administration and that the health consequences of using these products are unknown.
- (5) Postprocedure instructions that include all of the following: A. Information on the care of the procedure site. B. Restrictions on physical activities such as bathing, recreational water activities, gardening, or contact with animals, and the duration of the restrictions. C. Signs and symptoms of infection, including, but not limited to, redness, swelling, tenderness of the procedure site, red streaks going from the procedure site towards the heart, elevated body temperature, or purulent drainage from the procedure site.

119303 (b) Prior to the performance of body art, the client shall receive, complete, and sign a questionnaire that includes all of the following information:

- (1) Whether the client may be pregnant.
- (2) Whether the client has a history of herpes infection at the proposed procedure site, diabetes, allergic reactions to latex or antibiotics, hemophilia or other bleeding disorder, or cardiac valve disease.
- (3) Whether the client has a history of medication use or is currently using medication, including being prescribed antibiotics prior to dental or surgical procedures.
- (4) Other risk factors for bloodborne pathogen exposure.

- 17 119308(b)(1)(2) - Appropriate aftercare instructions given to client

- 18 119311(i) - Safe machine design

- 19 119308(b)(6),309(e)311(h) - Machines cleaned and disinfected between clients

- 20 119311(g) - Parts replaced between clients - grommets, elastic bands, etc.

- 21 119309(a-c) - Workstation/procedure area decontaminated

- 22 119301(k) - Appropriate chemical disinfectant used

- 23 119301(b) - Disinfectant used appropriately/sufficient contact time Wet contact time provided:

- 24 119311(h) - Barriers available and used appropriately *

- 25 119311(a)(c)(d) - Products applied to skin are single use/dispensed aseptically
