16K994 Reinspection

Compliance Date: Not Specified

Inspector Comments: A re-inspection was conducted on this date requested by the operator.

Not In Compliance

Reference - HSC

The following was noted during the complaint investigation:

- operator was unaware of this complaint.
- per operator pest control has been treating the facility every day since the last complaint inspection which was on April 21, 2021, some receipts were provided.
- various rat traps were observed on the floor throughout and outside the facility.
- pest control receipt for May 11, 2021 stated that one adult rodent died inside one of the exterior rodent stations and a juvenile rodent was disposed which was caught on a trap.
- pest control receipt for May 06, 2021 stated that they responded to a call back in regards to the customer who saw a rodent in the dinning room area and ran out of an open door.
- operator also stated that the every night the facility is cleaned and sanitized especially where rodent droppings are found and that every morning new droppings are found in the facility.
- several fresh rodent droppings were observed on the floor underneath the mechanical dishwashing machine, on the dishwashing machine adjacent to clean dish storage rack, behind the M3 Turbo Air Freezer located in the kitchen, underneath the fryers in the kitchen, underneath the cold holding table adjacent to air freezer in the kitchen, and on the floor adjacent to the heater.
- heavy food debris build up was observed on the floor underneath the cold hold table in the kitchen, on the floor underneath the M3 Turbo air freezer, and underneath the fryers.

On this date the following information was provided/observed:

- no rodent droppings were observed in the facility.
- operator stated that the inside of the facility including the floors, cooking equipment, cutting boards, above the mechanical dishwashing machine, preparation tables, everything on the cooks line have been cleaned and sanitized.
- observed no food debris build up underneath the cold hold table in the kitchen and on the floor underneath the M3 Turbo air freezer.
- per operator pest control treated the facility for the second time yesterday around 2pm (receipt was provided) and will continue treating the facility every morning before they open and every night after they close for the next two (2) weeks.
- operator also stated that they have cleaned the dumpster area and have discarded any equipment that was being stored there as well to prevent rodent nesting.
- they also covered any holes they have found to prevent the entrance of vermin.

Ensure that the facility remains free of vermin

NOTE: A follow up inspection will be conducted after 05/19/2021 to observe compliance. Failure to comply may result in billable follow up inspections.

Description: Reinspection conducted at this time to determine compliance from prior inspection.
