ACTION: 01 - NO FURTHER ACTION REQUIRED				

RETAIL FOOD PROTECTION - Public Eating PI (0-24 Seats)

16K999 Complaint Inspection

Compliance Date: Not Specified

Not In Compliance

Reference - HSC

Inspector Comments: A complaint investigation was conducted today. According to the complainant, it was alleged that this facility has roaches and rodents. Upon inspection, 2 dead bugs were observed on the floor under equipment. There was no evidence of rodent activity. The facility manager stated that pest control was called in due to roaches coming up from the drains. There is currently heavy street construction on Mountain Ave, directly in front of this establishment. Facility spoke with construction crew, who informed them that due to the work they are doing underground, many facilities in the surrounding area are having the same problem with bugs entering their facility through floor drains/pipes. Facility was instructed to pour bleach down the drains at night to hinder bugs from climbing up through them - facility has been doing this every night as instructed. Facility has a monthly pest control company who services the facility on a preventative basis - the last service invoice was dated June 25, 2015. Continue pouring bleach down drain nightly until construction is completed and evidence of bugs have been eradicated.

Description: A complaint report has been received by Environmental Health.

Overall Inspection Comments

No summary comments have been made for this inspection.
