Inspector Comments:

A complaint inspection was conducted today on 1/20/15.

Complainant alleges a customer walked into facility with two dogs that did not appear to be service animals. Complainant addressed situation to manager and alleges manager did not do anything about the situation.

Upon inspection, manager states that their policy is not to allow pets into facility except for service animals. Manager states that they did address situation to the customer with the dogs and states that by law, they are only allowed to ask an individual whether or not the pet is indeed a service animal. They cannot ask for verification documentation or ask for what type of service the animal is for. In this case for the complaint, the customer stated that the dogs were service animals.

Violation Description: A complaint report has been received by Environmental Health.
