#### Inspector Comments:

A complaint inspection was conducted today on 3/11/14.

Complainant alleges that restrooms are dirty and there are mouse traps around facility.

Upon inspection, the facility appears to be in moderate condition when regarding to cleanliness. Prep areas appeared to be clean.

Clean and maintain floors throughout facility.  
Observed debris build-up in corners in dry storage as well as underneath storage rack.

De-clutter and remove unused miscellaneous items in locker storage room to prevent vermin harboring and so employee are able to properly clean floors.  
Observed several miscellaneous items stored on floor in locker storage room.

Observed both men's and women's restroom in clean condition. One stall in women's restroom observed missing toilet paper. Restock.  
Observed hand wash facilities stocked and supplied.

Dining area observed clean and maintained.

Observed three mouse traps around perimeter of building.  
Facility is serviced by EcoLab once a month.  
Verified invoices and EcoLab inspections and observed no recent mouse or rat activity in the past couple of months.  
Manager states that the traps are used as a precaution because of the location of the facility where they are surrounded by open fields.
