**Inspector Comments:** This inspection was conducted as a follow up to the original complaint received on 5-26-15. During the complaint investigation on 5-27-15 numerous violations were observed at the sushi bar area. This follow up concentrated on that area alone.

**Description:** Reinspection conducted at this time to determine compliance from prior inspection.

**Overall Inspection Comments**

Food handling at the sushi bar was discussed at this time. The required yearly sushi rice test procedures and the proper written procedures that must be provided if using time only as a public health control were both discussed at great length at this time.

All violations noted on the original complaint investigation have now been corrected.

This complaint will now be closed.
