#### 16K999 Complaint Inspection

Compliance Date: Not Specified

Not In Compliance

Reference - HSC

#### Inspector Comments:

A complaint inspection was conducted today on 7/23/15.

Complainant states that restrooms are closed due to no water. Complainant also states that the portable toilets provided outside facility do not have a hand wash sink.

Manager was aware of complaint.

Initially during inspection, facility had running water. Shortly after the start of the inspection, due to a pipe broken during an on-going construction of a new water well system, the water was observed shut off. Facility immediately voluntarily closed restaurant operation.

Facility shall remain closed until facility can provide pressurized hot and cold running water. A follow up inspection will be conducted in the near future.

Ensure food facilities provide restroom facilities for employees and for patrons when there is on-site consumption of food.

Restrooms are currently closed to public due to low water pressure. Because of an on-going construction of a new water well system, the water and water pressure cannot accommodate the high traffic use for the restrooms. The facility has provided 11 portable toilets outside facility. Operator states that the portable toilets are pumped three times a week. Operator will lock portable restrooms once full.

Hand washing stations were observed adjacent to portable toilets.  
Ensure hand washing sinks are provided with soap and paper towel.  
Observed soap missing.

**Description:** A complaint report has been received by Environmental Health.

#### 16K006 Adequate handwashing facilities supplied & accessible

Compliance Date: Not Specified

Not In Compliance

Violation Reference -

#### Inspector Comments:

Provide soap for hand washing sink outside near portable toilets.

Observed none.

**Violation Description:** Handwashing soap and towels or drying device shall be provided in dispensers; dispensers shall be maintained in good repair. (113953.2) Adequate facilities shall be provided for hand washing. (113953, 113953.1, 114067(f)). Handwashing sink is not separated from a warewashing sink by a 6 inch high metal splashguard or 24 inch separation. (113953) Handwashing sinks shall not be obstructed, inaccessible, used improperly or kept unclean. (113953.1)

#### Overall Inspection Comments

Complaint has been addressed.

Follow up for water availability shall be conducted in the near future.

If there are further questions, please contact Environmental Health Services or Melissa Nano at (800) 442-2283.
