IMPORTANT: Replacement of Suction Outlet Covers
Suction Outlet covers (anti-entrapment covers over main drains and skimmer equalizer outlets) shall be replaced upon expiration. The expiration (in years) is stamped on the front of each cover, indicating the amount of time the cover is valid after installation. Each replacement cover shall:
1. Meet the latest ANSI/APSP-16 performance standard
2. Be rated for the maximum designed flow-rate of the pump
Retain all records which indicate the make/model number of the replacement cover and date of installation. Records shall be made available to your inspector upon request.

36K528 Safety – Safety equipment

POINTS 1	Compliance Date: Not Specified	Inspector Comments: Observed no rope attached to life ring. All swimming pools are required to provide a life ring with an outside diameter of 17 inches and a rope (at least 3/16 inches in diameter) attached that is long enough to span the widest part of the pool.
	Not In Compliance	
	Violation Reference - HSC - 65540	

Observed rescue pole with a detachable body hook. Ensure to obtain a rescue pole with a permanently attached body hood. Body hook shall be 12-foot minimum for pools. For spas, length shall be a sufficient length to effectuate rescue.

Violation Description: Except for spray grounds without standing water, the pool operator shall ensure that the following safety and first aid equipment is provided and maintained readily visible and available for use at the public pool at all times:
(1) A 17-inch-minimum (exterior diameter) life ring with an attached throw rope with a minimum 3/16-inch diameter. The throw rope shall be of sufficient length to span the maximum width of the public pool and shall be stored in such a way as to prevent kinking or fouling.
(2) A 12-foot-minimum fixed-length rescue pole with a permanently attached body hook. For spas, the length of the rescue pole shall be of sufficient length to effectuate rescue.
For public pools that exceed 75 feet in length or 50 feet in width, the pool operator shall provide a rescue pole and a life ring on at least two opposing sides of the public pool at centralized locations.

For public pools with lifeguard personnel on duty, the pool operator of each public pool area shall have the following additional safety equipment:
(1) A Red Cross 10-Person Industrial First Aid Kit or the equivalent.
(2) An operating telephone.
(3) A backboard and head immobilizer.

36K576 Maintenance – Operation/Incident records

POINTS 1	<p>Compliance Date: Not Specified</p> <p>Not In Compliance</p> <p>Violation Reference - HSC - 65523</p>	<p>Inspector Comments: Observed no daily pool records on site. Ensure to maintain daily records for pool. Pool Code sec. 65523 states: "The operator of each pool open for use shall keep a daily record of information regarding operation, including readings of disinfectant residual, pH and maintenance procedures such as cleaning of filters and quantity of chemicals used." Also it states: "If cyanuric acid is used..., the cyanuric acid concentration shall be measured a minimum of once per month and records shall be kept of the results of such testing." If the pool service person is only at the site 3 days a week, there needs to be someone else to record the chlorine and pH on the other 4 days. The only way poor chemistry can be corrected is if someone knows that it is "poor."</p>
-------------------------------	--	---

Violation Description: The pool operator shall maintain a written daily record of all test results, equipment readings, calibrations, and corrective action taken at the public pool site. [This includes daily records of pH, disinfectant level, and water temperature. If used, cyanuric acid concentration shall be tested monthly.]

If a fecal, vomit, blood contamination, near-drowning, or drowning incident occurs in a pool, the pool operator shall record the incident in accordance with the requirements of [Health and Safety Code] section 65546 and shall identify the affected public pool in the incident record if there is more than one pool at the public pool site. This record shall be maintained at the public pool site.
