In Compliance
Not in Compliance

temperature (°F)	No Data
observed flow (gpm)	No Data
required flow (gpm)	168
volume (gal)	81,000
area (sq ft)	1,800
occupancy	90

**IMPORTANT: Replacement of Suction Outlet Covers**

Suction Outlet covers (anti-entrapment covers over main drains and skimmer equalizer outlets) shall be replaced upon expiration. The expiration (in years) is stamped on the front of each cover, indicating the amount of time the cover is valid after installation. Each replacement cover shall:

1. Meet the latest ANSI/APSP-16 performance standard
2. Be rated for the maximum designed flow-rate of the pump

Retain all records which indicate the make/model number of the replacement cover and date of installation. Records shall be made available to your inspector upon request.

Compliance Date: Not Specified  
 Not In Compliance  
 Violation Reference - HSC

**Inspector Comments:** During the last routine inspection a non-permitted pool was observed in the pool area. Facility was given 30 days to submit plans to San Bernardino County Environmental Health plan check for the slide on 6/29/15 but failed to do so. Facility is currently going through plan check with San Bernardino County Land Use and Building Safety but are required to make corrections and have not been approved. Observed an approved engineering report for the slide on site. Submit plans to San Bernardino County Environmental Health plan check for the slide within 72 hours. Due to the lack of compliance with the deadline given on 6/29/15 facility must immediately discontinue the use of the slide until plans have been submitted and approved to the Environmental Health Division. Random billable inspections may occur if the slide is found in use prior to compliance.

**Description:** Obtain a valid health permit within 3 days or as specified to avoid facility closure and/or other possible legal action.

**Overall Inspection Comments**

No summary comments have been made for this inspection.
