temperature (°F)	No Data
observed flow (gpm)	No Data
required flow (gpm)	No Data
volume (gal)	No Data
area (sq ft)	No Data
occupancy	No Data

IMPORTANT: Replacement of Suction Outlet Covers
 Suction Outlet covers (anti-entrapment covers over main drains and skimmer equalizer outlets) shall be replaced upon expiration. The expiration (in years) is stamped on the front of each cover, indicating the amount of time the cover is valid after installation. Each replacement cover shall:

1. Meet the latest ANSI/APSP-16 performance standard
2. Be rated for the maximum designed flow-rate of the pump

Retain all records which indicate the make/model number of the replacement cover and date of installation. Records shall be made available to your inspector upon request.

 Violation Reference - HSC

Inspector Comments: A complaint report has been received by Environmental Health on 9/1/15. As per complainant "the owner and the residents of 17450 Sequoia St. feel free to violate the pool closure notice issued by the county of San Bernardino, as I have witnessed first hand people swimming in the pool not to include climbing the pool fence to gain entry. This is a safety and health hazard".
 Upon investigation, discussed the issue with the manager, Carey, who said, "nothing like this happens, and there is cameras to show that. The only time we entered while the closure sign was on was when we were fixing the pool".
 Ensure laws are respected, and pool area is kept safe.

Description: A complaint report has been received by Environmental Health.
