16K997 Foodborne Illness Complaint Inspection

Compliance Date: Not Specified

Not In Compliance

Reference - HSC

Inspector Comments:

Environmental health received a complaint about an alleged food borne illness.

Observation as follows:

Explained nature of complaint to manager on site at time of complaint inspection.

Question manager if any employees have been ill or reported to work ill. Per manager, no employees have reported to work ill or have called off due to illness.

Observed quaternary ammonia sanitizer measuring at 200ppm in all of the sanitizing buckets and in the 3 compartment warewashing sink.

Observed hot water exceeding 130F degrees throughout the facility.

Observed all hot holding food temperatures to be at or above 165F.

Observed employees able to demonstrate knowledge in proper cooking temperatures, hot and cold holding temperatures, proper cooling procedures, proper reheating, proper sanitizing and warewashing procedures.

Observed employees wash hands when switching tasks and when contamination occurred.

Facility has not had any changes in food suppliers, food processing procedures or has modified ingredients.

Facility has not experience any failures in equipment, power, water or had any waste water or sewage overflows.

Ensure to properly identify time on food items that are used for time as temperature control. Observed time as a public health used but not marked on tomatoes and cheese and still within the 4 hour period. Corrected. Tomatoes and cheese were time marked correctly.

Complaint closed.

Description: A foodborne illness complaint report has been received by Environmental Health.

16K008 Time as a public health control; procedures & records

Compliance Date: Not Specified

Not In Compliance

Violation Reference - HSC - 114000

Inspector Comments: Ensure to properly identify time on food items that are used for time as temperature control.

Observed time as a public health used but not marked on tomatoes and cheese and still within the 4 hour period. Corrected. Tomatoes and cheese were time marked correctly.

Violation Description: When time only, rather than time and temperature is used as a public health control, records and documentation must be maintained. Food must be marked or otherwise identified as to what time the food was removed from temperature control. (114000) Food items shall not exceed the time marked. (114000)

Overall Inspection Comments

No summary comments have been made for this inspection.
