Inspector Comments: Environmental Health has received a complaint stating that birds were observed flying around inside facility and were pecking at the produce.

Contacted the store manager in regards to complaint. Manager states of having a few birds inside facility. Facility has warehouse style entrance and exit doors that remain open during operating hours and birds occasionally enter. Traps have been placed in various areas inside facility, and all produce observed affected was discarded.

If birds are observed inside facility and are not able to be trapped/removed, recommend covering all exposed produce, foods, etc. with plastic sheeting to prevent contamination.

Description: A complaint report has been received by Environmental Health.
