16K999 Complaint Inspection

Compliance Date: Not Specified

Not In Compliance

Reference - HSC

Inspector Comments: The Environmental Health Services received complaint alleging that flies were observed inside the meat display cases in the meat department.

Findings: Dead flies were observed in cheese and meat display cases in the meat section. Some live flies were, also, observed inside the main store.

All entry doors into the facility has functioning air curtains. As observed during the inspection, the curtains on the front entrance, east of the store, were pushing the flies straight down to the floor thereby allowing some of the flies to slowly get into the store. Readjust the air curtains so as to push the flies out.

Also, the display cases are falling apart- the rims are no longer fitting to the frame. Repair or replace the cases. The temperature of all food items in the display cases were within their legal limits of 41°F or below.

Complaint is valid.

Complaint is closed.

Description: A complaint report has been received by Environmental Health.
