Inspector Comments: The purpose of this visit is to conduct a billable re-inspection.

On Friday, August 30, 2019, this facility was closed due to a live cockroach infestation throughout the kitchen area. On 9/3/2019, observed approximately one (1) live adult cockroach near the floor drain area below the bread table and one (1) live nymph cockroach in the dishpit area. Operator stated that pest control service was conducted in the morning on this date. Operator also stated that pest control is scheduled to service and treat facility once a week and once a month to conduct a "fogging" service. Observed pest control service invoices dated on 8/30, 8/31, and 9/3/2019.

Per supervisor approval, facility remained open on 9/3/2019. On this date, a billable re-inspection was conducted to determine if any live cockroach infestation was still occurring. Observed no dead or alive cockroaches in facility. No live infestation/activity was observed in any area of the facility. Observed several cracks to be sealed and grouted. Per operator, more tiles and cracks will continue to be replaced and sealed. Operator stated that pest control serviced facility the night prior to this date and will continue a weekly service and treatment.

No further actions required. Facility health permit is now re-instated. Facility may operate.

Description: Billable re-reinspection conducted at this time to determine compliance from prior reinspection.

Overall Inspection Comments

This facility's health permit is re-instated and may now re-open to the public.
