RETAIL FOOD PROTECTION - Public Eating PI (0-24 Seats)

Based on an inspection this day, the items marked below identify the violation(s) in operation or facilities which must be corrected. Failure to correct listed violation(s) prior to the designated compliance date may necessitate an additional inspection to be billed at the hourly rate as provided in the San Bernardino County Code, [Schedule of Fees](#).

Administrative Order to Show Cause (OSC): The Permittee has the right to a hearing if requested in writing within 15 calendar days of receipt of this notice, to show cause why the permit to operate should not be suspended or revoked; otherwise the right to a hearing shall be deemed waived.

See the following pages for the code sections and general requirements that correspond to each violation listed below.

16K995 Permit - Suspension

Compliance Date: Not Specified

Not In Compliance

Violation Reference - HSC

Inspector Comments:

Your health permit is suspended on this date and you are not to reopen until you have permission to reopen by a representative from our department.

Violation Description: Violation(s) observed pose an immediate threat to public health and safety and the health permit to operate is hereby suspended and ordered closed until the listed violation(s) have been corrected and verified by DEHS. Facility is to remain closed until permission from DEHS is given. Contact your inspector at your local office to schedule a reinspection to reinstate the health permit. Posted closed, do not move, hide, or remove sign.

16K999 Complaint Inspection

Compliance Date: Not Specified

Reference - HSC

Inspector Comments:

This inspection is being conducted in regards to a complaint that our Agency received regarding sewage backing up from the floorsinks in the kitchen. The complaint number is CO0064192.

Upon arrival the complaint was discussed with the manager. The manager showed two locations where the floor sinks were overflowing. The manager was informed that since the floor sinks were backing up into the kitchen, (One location below the pizza topping area and the other below the hand sink, near the entrance to the walk-in cooler) the business would need to close. The manager was informed that if floor sinks are backing up onto the floor of the restaurant, that would be considered sewage. The manager was informed to discontinue taking any further orders and to close. The Letter Grade card in the front entrance area was removed and a NOTICE OF CLOSURE sign was posted.

The manager indicated that a plumber was out and scoped the drain line and that the sewer line is broken. The kitchen floor will need to jackhammered in order to make the necessary repairs to the plumbing.

The manager was informed since the removal of the kitchen floor would create a large amount of dust, to properly seal all utensils, put all food products in the walk-in cooler or refrigeration units.

Once all of the necessary repairs have been made you are to thoroughly clean and sanitize the entire facility.

You are not to reopen until a representative from our department comes out and gives written permission to reopen.

You can contact our office at 1-800-442-2283 once all of the corrections have been made.

Description: A complaint report has been received by Environmental Health.

16K022 Sewage and wastewater properly disposed

Compliance Date: Not Specified

Not In Compliance

Violation Reference - HSC - 114197

Inspector Comments:

Two floor sinks were observed backed up on this date and employees have been mopping up the sewage.

Make the necessary repairs to the floor sinks so that they are in good repair and properly draining.

Violation Description: All liquid waste must drain to an approved fully functioning sewage disposal system. (114197) Toilet facilities must be operable.
