occupancy	No Data

**IMPORTANT: Replacement of Suction Outlet Covers**

Suction Outlet covers (anti-entrapment covers over main drains and skimmer equalizer outlets) shall be replaced upon expiration. The expiration (in years) is stamped on the front of each cover, indicating the amount of time the cover is valid after installation. Each replacement cover shall:

1. Meet the latest ANSI/APSP-16 performance standard
2. Be rated for the maximum designed flow-rate of the pump

Retain all records which indicate the make/model number of the replacement cover and date of installation. Records shall be made available to your inspector upon request.

**36K542 Enclosure – Non-Critical – Gates and doors self-closing and self-latching**

**POINTS**  
**1**

Compliance Date: Not Specified  
Not In Compliance  
Violation Reference - CCR - 3119B

**Inspector Comments:** Observed back gate not properly self closing and self latching at time of inspection. Pool service staff pad locked and locked gate at time of inspection. Pool staff to repair back gate immediately.

At time of inspection, observed main gate door left ajar with installation material. Maintain gate door closed to prevent hazards. Corrected on site. Observed gate self closing and self latching.

**Violation Description:** Gates and doors shall be equipped with self-closing and self-latching devices. Gates and doors shall be capable of being locked during times when the pool is closed. The self-latching device shall keep the gate or door securely closed. Gates and doors shall open outwardly away from the pool except where otherwise prohibited by law. The pool enclosure shall have at least one means of egress without a key for emergency purposes. The enclosure shall be constructed so that all persons will be required to pass through common pool enclosure gates or doors in order to gain access to the pool area. All gates and doors exiting the pool area shall open into a public area or a walkway accessible by all patrons of the pool.

**Overall Inspection Comments**

NOTE: At time of inspection, observed main gate door left ajar with installation material. Informed management staff and pool service staff at time of inspection. Maintain gate door completely closed to prevent hazards. Corrected on site. Observed main gate self closing and self latching.
