#### Inspector Comments:

A complaint inspection was conducted today on 7/8/15.

Complainant states that facility is cooking expired chicken. Complainant states that th walk-in cooler has a bad smell.

Upon inspection, manager on duty was not aware of complaint.

Observed 18 boxes of raw chicken marked with "Kill Date: 7/2/15". When clarified with manager, manager states that the kill date is marked as the date the chicken was killed and processed from the distributor. Manager states the chicken must be used within 12 days from the kill date stated. After the 12 days, the raw chicken is discarded.

Expired dates are commonly used for quality purposes from the manufacturer.

Observed raw chicken at 41F and below.

The walk-in cooler did not have any strong foul odor smells.
