Inspector Comments: The purpose of this re-inspection was to verify that rodent droppings had been cleaned up and that there was no sign of an active vermin infestation.

Viewed professional pest control receipt which stated that the rodent problem in the facility was under control and was dated 12/6/18.

Observed that rodent droppings had been cleaned up in the kitchen, room adjoining kitchen, sound equipment area, and bar, and that there was not a sign of an active infestation. Observed that holes in walls had been filled, including around the air conditioning unit identified by the pest control expert as an area of concern.

No further action required at this time.

Closure sign removed and grade reposted.

Description: Billable re-reinspection conducted at this time to determine compliance from prior reinspection.
