BODY ART INSPECTION

| | |
|---------------------------|---|
| 28 | 119308(a-b);119309;119311 - Cross-contamination avoided during all phases of procedure |
| POINTS 3 | Inspector Comments: The code states: "When covering a procedure site, use a sterile dressing" (Section 119308(b)(3)). Observed non-sterile dressing material being used by multiple practitioners at this time. |

Violation Description:

119308 (a) Before performing body art, the practitioner shall put on personal protective equipment that is appropriate for the task.

(b) All solid surfaces and objects in the procedure area and the decontamination and sterilization area that have come into contact with the client or the materials used in performing the body art, including, but not limited to, chairs, armrests, tables, countertops, and trays, shall be immediately cleaned and decontaminated after each use by application of a disinfectant, used according to manufacturer's directions.

(d) The practitioner shall wear disposable gloves on both hands when touching, decontaminating, or handling a surface, object, instrument, or jewelry that is soiled or that is potentially soiled with human blood.

(e) An instrument or other reusable item that comes into contact with nonintact skin or mucosal surfaces shall either be single use or be cleaned, decontaminated, packaged, and sterilized after each procedure. Sterilization shall be accomplished pursuant to the procedures established in Section 119315 by steam autoclave.

119311 (a) A product applied to the skin prior to tattooing or application of permanent cosmetics, including, but not limited to, stencils and marking and transfer agents, including pens, shall be single use and discarded into a waste container at the end of the procedure unless the product can be disinfected for reuse.

(c) Inks, pigments, soaps, and other products in multiple-use containers shall be dispensed in a manner to prevent contamination of the storage container and its remaining contents through the use of a single-use receptacle.

(d) Inks and pigments shall be placed into a clean, single-use receptacle. The inks and pigments remaining in the receptacle shall be discarded immediately upon completion of the procedure.

(e) If a tray is used for inks or pigments, it shall be decontaminated after each procedure.

(f) Only single-use needles and needle bars shall be used in tattooing and the application of permanent cosmetics. Needles and needle bars that are purchased in a nonsterilized state, shall be sterilized, pursuant to the process required by Section 119315.

(g) Needles, needle bars, grommets, and razors shall be discarded into a sharps waste container immediately upon completion of the procedure.

(h) Any part of a tattooing machine that may be touched by the practitioner during the procedure shall be covered with a disposable plastic sheath that is discarded upon completion of the procedure, and the machine shall be decontaminated upon completion of the procedure.

Inspector Comments:

Did not observe current registration for two practitioners: Jesse Vilarreal and Andrew Audish. Renew registration as needed, and do not practice without a current registration with this department. The current registration is also to be posted at each station.

Violation Description:

119306 (c) As a condition of registration, the applicant shall provide all of the following: Evidence of current hepatitis B vaccination, including applicable boosters, unless the practitioner can demonstrate hepatitis B immunity or has complied with current federal OSHA hepatitis B vaccination declination requirements. Evidence of completion of OSHA Bloodborne Pathogen Training consistent with Section 119307 and pursuant to paragraph (2) of subdivision (g) of Section 5193 of Title 8 of the California Code of Regulations or its successor. Proof that he or she is 18 years of age or older. Self-certification of, knowledge of, and commitment to meet state law and relevant local regulations pertaining to body art safety. His or her business address and the address at which he or she will perform any activity regulated by this chapter. Payment of a registration fee directly to the local enforcement agency. The local enforcement agency shall set the fee at an amount not to exceed the amount necessary but that is sufficient to cover the actual costs of administering the program. The local enforcement agency shall issue a health permit after an investigation has determined that the proposed body art facility and its method of operation meets the specifications of the approved plans or conforms to the requirements of this article.

119306 (d) A practitioner shall display, in a place readily visible to the public at the body art facility where the practitioner is performing body art, the certificate confirming registration with the local enforcement agency in the jurisdiction in which that practice is conducted.

119306 (e) A valid and current registration issued by a local enforcement agency shall be valid in any other jurisdiction for no more than five consecutive days, or 15 days total, in any one calendar year.

119312 (g) The health permit shall be posted in a conspicuous place at the body art facility. Certificates of registration for all practitioners performing body art in that facility shall also be prominently displayed either near the health permit or at the individual practitioner's procedure area if each practitioner has a designated area.

119318 (d) The name, telephone number, and directions to an emergency room near the temporary body art event shall be posted in a conspicuous location.

119318 (e) Each practitioner working in a booth at a temporary body art event shall display his or her certificate of registration, or keep the certificate in a folder that is available for inspection upon request of the enforcement officer or a client.

Inspector Comments:

The Infection Prevention Control Plan (IPCP) was not available at this time. Maintain the plan on site at all time. Also, on-site training on the Plan shall take place at least once a year, and training record shall be maintained for three years.

Violation Description:

119306 (c) (1) Evidence of current hepatitis B vaccination, including applicable boosters, unless the practitioner can demonstrate hepatitis B immunity or has complied with current federal OSHA hepatitis B vaccination declination requirements.

(2) Evidence of completion of OSHA Bloodborne Pathogen Training consistent with Section 119307.

119307 (a) Prior to registering with the local enforcement agency, a practitioner shall complete a Bloodborne Pathogens Exposure Control Training program that is specific to his or her practice.

(d) Each person required to complete a Bloodborne Pathogens Exposure Control Training program pursuant to this section shall annually complete a minimum of two hours of Bloodborne Pathogens Exposure Control Training update presented by a trainer eligible pursuant to paragraph (1) of subdivision (c).

(e) Records of training required pursuant to this section shall be maintained for three years and shall be available for inspection upon request of the enforcement officer.

119313 (a) A body art facility shall maintain and follow a written Infection Prevention and Control Plan, provided by the owner or established by the practitioners, specifying the procedures to achieve compliance with each applicable requirement of this chapter.
