HVAC Construction Begins on Yucaipa Library

Yucaipa, CA – Construction on the Yucaipa Library heating, ventilation, air-conditioning (HVAC) and roof repair/replacement is set to begin in the next few weeks.

On December 16, 2008, the Board of Supervisors awarded a contract to Arrowhead Mechanical, Inc. for the replacement of the HVAC system and the replacement of the roof at the library. The heating and cooling equipment for the facility no longer provided adequate heating or cooling. In addition, the roofing also leaked during periods of inclement weather.

A Notice to Proceed was issued on January 12, 2009, and equipment submittals were received on January 30, 2009. Once those submittals are approved, the equipment can be ordered and a construction schedule will be produced based on the delivery schedule. The expected approval date for the submittals is February 13, 2009.

Pre-work at the site is anticipated to begin within the next few weeks.
